With over 2,300 different telephone numbers listed to access local government services, many people did not know what number to dial to reach the appropriate department. Now you can connect to city services with only two numbers to remember: **911** for emergencies and **3-1-1** for everything else.

Before 311, over 50% of calls to the 911 center were not emergency related. **311** relieves 911 operators from these non-emergency calls. If a catastrophic emergency such as an earthquake occurs, **311** operators will be able to provide accurate information to assist during the recovery. In the unlikely event the 911 facilities becomes inoperative, the **311** call center will function as a back up.
