Hello all,

4th of July is coming our way and I want you all to be prepared. 4th of July is a time of celebration but please do so safely.

We have included in this newsletter some information on Fireworks (pg. 3). I cannot emphasize enough the importance of safety around the use of fireworks and I cannot encourage you enough to just go see the public displays and avail of that experience rather than creating your own. Each year there are so many horrific incidents of people losing body parts and lives because of the misuse of fireworks. My advice is don't use them and avoid being a victim.

On another but related note some people may think shooting off a shotgun is an appropriate way to celebrate 4th of July, it is not and it is not only illegal but also dangerous. What goes up must come down and on occasion those rounds shot off end up striking some innocent person and causing serious injury or death.

Please note that there will be no vehicle access to Twin Peaks View Point from 4pm on July 4th until after the fireworks.

Please all be safe, keep yourselves, your family and pets safe and most importantly celebrate Independence Day safely and smartly.

Take good care!

Captain Una Bailey

Every Fourth of July, more fires are reported nationwide than on any other day of the year, with 50% of those fires being fireworks-related. Homes, wooded & grassy areas, and even automobiles have become engulfed in flames because of fireworks. On the Fourth of July over the past three years, the San Francisco Fire Department has responded to 53 fireworks-related grass fires, in addition to multiple structure fires that were also caused by fireworks. Most commonly the fires are caused by bottle rocket-type fireworks, where the rockets can land in dry vegetation, on rooftops, or wedge within structures, and still retain enough heat to cause a fire.

In recent years, fireworks have been one of the leading causes of serious injuries that require emergency treatment in a hospital ER. Fireworks can cause severe burns, fractures or scars, and can even result in death or life-long disfigurement. The thousands of serious injuries that occur each year typically involve damage to the eyes, head or hands, with the risk of fireworks-related injuries highest for children 5 - 14. Even though novelty fireworks, such as fountains and sparklers, are generally considered to be "safe", they can reach temperatures of more than 1,000° F, and account for 36% of all emergency room fireworks-related injuries.

There ARE safer alternatives to using fireworks on the Fourth of July. Public fireworks displays can be the safest and smartest, and even most economical, fireworks alternative. The San Francisco Bay Area hosts several free public fireworks displays every Fourth of July.

For more information about fireworks facts, safety tips, and federal & state fireworks laws, please explore the links below.

The San Francisco Fire Department wishes you a Safe and Happy Fourth!

CITIZENS OF THE MONTH

On May 7th, 2018, Animal Care and Control was notified regarding a “little white dog” that was running in and out of traffic along the busy vehicular thoroughfares along the Panhandle, Stanyan Street, and Kezar Drive. For over 90 minutes, this tiny, terrified dog was running frantically on bustling city streets, somehow avoiding calamitous injury and evading capture.

Lucky for this frightened creature, a very smart young woman named **Connie** who is an intern at Recreation and Park Department saw the little dog running in front of a bus on Kezar Drive. As soon as the dog made it out of the street, **Connie** tried to lure it to a grassy area. Nearby, another young woman named **Paige**, who is a Psychology student from UCSF, was seated on the lawn and saw the little dog with no collar and she immediately joined **Connie** to help catch the dog, who was cowering behind a bench, shivering and terrified.

A nearby Park Station Officer saw the women chasing the dog and intervened to assist in their efforts to help corral the dog who was clearly in great distress. **Connie** lured the dog out of hiding by sharing her own lunch, and the ravenous pup eagerly consumed every morsel while **Paige** stood by attempting to build trust with the petrified creature. They obtained some twine and together were able to slowly coax the tiny fugitive into a makeshift lasso....

CITIZENS OF THE MONTH (CONTINUED)

This poor dog was extremely malnourished, with protruding ribcage, and his coat was covered in dirt. Once he was at ease, he was absolutely the sweetest creature and lapped up affection and cuddles.

Park Station is grateful to **Connie and Paige** for their thoughtful commitment to saving this little dog, who could have easily been harmed or killed in the onslaught of oncoming traffic. We deeply appreciate their compassion, kindness, and ingenuity —as it represents the best qualities of people in our community, who are looking out to help those in distress...across all species. Currently this 5 year old male Terrier is receiving care from Animal Care and Control located in San Francisco (415) 554-6364.

Connie and Paige...with the dog they saved from peril...

CAPTAIN BAILEY'S TIP OF THE WEEK TO PREVENT OR SOLVE CRIME

I want to take this time to remind everyone to record the serial numbers of all your valuables i.e. bikes, tools etc. You can do this by simply taking a photo of the item and then zoom in to take a photo of the serial number. Most people have smart phones and you can easily use your phone camera to achieve this. This is really great information for you to have in the event you are a victim of a theft. We can post the photos on flyers and record the serial numbers of your possessions so that in the event we make an arrest of an individual with stolen items your items will be easily recognizable. Officers can also identify them easily if they are being sold at any location. Bottom line having this information increases your chances of being reunited with your stolen items. It also increases the chances of these thieves being held accountable for their crimes.

Please take the time, and review the SF SAFE form on the next page (page 3) for helpful residential safety tips.

Please everyone take good care and be safe.

Captain Una Bailey

LOCATION OF SERIAL NUMBER ON AFFECTED BICYCLES

Whether you live in a single family home, condo, or a large apartment complex in San Francisco, there are a number of ways you can keep your residence safe and secure. Working together as a community with your neighbors and building management can significantly improve your residential safety.

7 Residential Safety Tips

- 1 **Garage:** When entering or leaving the garage, watch to ensure door shuts completely. Lock stored bikes to a sturdy rack.
- 2 **Car:** Always lock your vehicle when parked in your garage and remove all valuables. Never leave garage door opener in your vehicle when parked outside your home.
- 3 **Spare Key:** Never hide spare keys. If you need to have a spare key available, leave it with a trusted neighbor.

- 4 **Door Buzzer:** When a visitor rings your bell, confirm who it is by intercom before you grant them access. Similarly, never let strangers follow you through the front door.
- 5 **Security Cameras & Alarm Systems:** Cost effective tools for preventing crime and identifying criminals.
- 6 **Light Timers:** Installing timers on the exterior of your residence is an effective and energy efficient way to deter criminal activity.
- 7 **Doors/Windows:** Always keep doors and windows locked.

Door and Window Safety

Doors:

- Should be made of solid wood or metal
- Have a single cylinder deadbolt lock and a 1-inch bolt
- Have a front door viewer or peep hole with a 180-degree range
- Clearly display unit number

Windows:

- Replace if glass is cracked and replace all damaged or missing locks
- Ground level windows should be burglary resistant: consider purchasing windows with reinforcement wire, laminate, or tempered glass
- Polycarbonate plastic or metal grates can be installed over existing ground level windows
- Windows above ground level are not considered secure: if used for ventilation, lock in position and keep open no more than 3 inches

Keep property in good repair. Maintain visibility to your neighbors for increased safety.

WHO AND WHEN TO CALL?

3-1-1: Please contact 3-1-1 when the issue is a not an emergency, yet requires City services or, if you simply have questions regarding City services. Non-emergency situations include the following examples: damage to public property, public trees that requires pruning, defective streets or sidewalks, homeless-related issues. 3-1-1 was developed to help the community inform the appropriate City agency regarding a service request.

Non- Emergency San Francisco Dispatch Line: Please call the non- emergency dispatch line **(415-553-0123)** when the scenario does not need immediate response from the San Francisco Police Department. For example, if there is a loud party, a group of loud juveniles loitering in front of your residence, noise complaints, doubled parked vehicles, suspicious activities, or a homeless/nuisance related issue. **The non-emergency line is for situations that require the police, but do not require an immediate police response.**

9-1-1, please call 9-1-1 immediately if there is a police, fire, medical, or any other emergency. The purpose of San Francisco's 9-1-1 Emergency Telephone System is to provide the community an immediate response of police, fire, or medical personnel for emergency occurrences. To accomplish this, it is imperative that the calls received on the 9-1-1 line be restricted to those situations that require immediate dispatching of police, paramedic, or fire department personnel. For example, crimes or fires that are in-progress, or medical emergencies.

The San Francisco Police Department district station telephone numbers and emails are not monitored. Questions will be answered in the order we receive them. Station emails are not for making police reports nor for reporting a crime. If you need to make a police report, you can call 415-553-0123 or go to your district police station. **If you have an emergency, please call 9-1-1.**

PARK STATION'S VISION & VALUES

Captain Una Bailey

I absolutely love police work and I love all that we as SFPD can do to help victims, solve and prevent crimes, and I am a firm believer in the power of the community. We, as a department, are only as successful as our partnerships with the community. I learned very early in my career how important community involvement is both in solving and preventing crimes and also in the creation of safe desirable neighborhoods. I look forward to building and maintaining community involvement and relationships over the coming years. I know that when we work together, we will create a district that will be safe and sound for all.
