National Night Out

National Night Out Park Station

What a great turnout for this event! Our community members, CPAB members, Police Officers, The SF Sheriff's Department, SF Firefighters, SF Recreation & Park Rangers, California Highway Patrol, University of San Francisco Public Safety, The District Attorney's Office, SF ALERT, SF SAFE, SF NERT Department Emergency Management (DEM), neighborhood groups such as Friends of Duboce Park, Duboce Triangle Neighborhood Association, Inner Sunset Neighborhood Association, Starbucks, State and City Leaders all gathered together at Duboce Park to celebrate our neighborhood and community.

We had fun games for the kids, a delicious BBQ, dancing entertainment, face painting, a bouncy house and an array of free giveaways for all who attended.

The event was a wonderful way for our residents and community leaders to enjoy an evening getting to know each other.

Thanks to SF SAFE, Sutro Towers, and Gus's Community Market for their generous donation to National Night Out. We appreciate all the above groups, departments and associations who contributed in making this event successful.

National Night Out would not be possible without all of Park Station's CPAB members working tirelessly to make this event successful. Thanks to Tricia Stauber for taking the lead role in National Night Out.

Thanks again for a wonderful Night!

OFFICERS OF THE MONTH**Captain Bailey has named Jeremy Mitchell and Orpheos Tarbox,
Officers of the Month for the month of August.**

These two outstanding Officers have served the citizens of San Francisco for 18 years, they both attended the San Francisco Police Academy class of 203rd. In 2003 they came to Park Station and have been partners ever since. The residents of the Park District are fortunate to have these extremely dedicated Officers protecting them daily. Officer Mitchell and Officer Tarbox have helped many citizens over the years and have arrested numerous criminals.

SCHOOL SAFETY TIPS

With a new school year starting, here are some Safety Tips when walking to school.

Walk to School Safely

- ◆ Plan a safe route, always walk with an adult or a friend. Wear bright colored clothes if possible.
- ◆ Walk on the sidewalk, watch for cars at every driveway and intersection.
- ◆ Always use crosswalks or intersections when crossing the street, do not cross mid block and don't forget to activate the crosswalk signal if one is available.
- ◆ Look before you cross the street, look left, right and left again, do not cross the street if you see a car coming, even if you have the right-a-way. The driver may not see you. Try to make eye contact with the driver before you cross the street.
- ◆ Do not walk with earbuds or headphones on.
- ◆ Do not walk while texting or talking on the phone, be aware of your surroundings.

SCHOOL SAFETY TIPS

Driving safe around schools

- ◆ Be aware of school zones, pay extra attention around schools, playgrounds, and parks. A young child may dart in front of your vehicle.
- ◆ Don't block the crosswalk when stopped at a stop sign, red light or waiting to make a turn. This forces pedestrians to go around your vehicle and could put them in the path of moving traffic.
- ◆ Yield to pedestrians crossing the street or intersection. Always stop for a school crossing guard holding up a stop sign.
- ◆ Never pass a vehicle stopped for pedestrians.
- ◆ Always stop for pedestrians even if you have the right of way.
- ◆ Never pass a school bus when it is stopped to unload children.

SOME OF PARK STATION'S ARRESTS FOR THE WEEK**Burglary, Residence, ATT. Forcible Entry / Area of Irving St. 08/06/2019—1618 Hrs.**

On August 6th, 2019 officers were dispatched to Irving Street in response to a call regarding a burglary in progress. Upon arrival, the caller told the officer that the suspect had attempted to break into her apartment building by using a credit card to unlock the door. According to the caller, it wasn't his first attempt to break into her building, as she recognized him from a similar incident in April. The suspect was still standing at a building nearby, officers contacted the suspect and arrested him. He was transported to Park Police Station, booked for burglary and later transported to County Jail.

Driving, License Suspended or Revoked; Traffic Violation Arrest / Area of Church St. 08/06/2019 – 0858 Hrs.

On August 6th, 2019, two officers were stopped on Duboce Avenue when they observed a vehicle driving northbound in a marked red transit only lane. The officers conducted a traffic stop and contacted the driver. A computer check revealed that the driver's license was suspended, the vehicle's registration was expired, and the driver had a prior conviction for driving on a suspended license. The driver was also unable to provide proof of insurance. Consequently, the driver was cited for his violations and his vehicle was towed.

Municipal Code Violation (General); Warrant Arrest, Enroute to Outside Jurisdiction; Warrant Arrest, Local SF Warrant / Area of Church St. – 08/06/2019 – 0609 Hrs.

On August 6th, 2019, an officer was on patrol in the area of Church Street and Duboce Avenue in response to an increased amount of complaints from business owners and area residents regarding subjects obstructing sidewalks and urinating in doorways. While on patrol, the officer noticed two subjects illegally smoking a vape pen in a Muni bus shelter. The officer contacted the subjects and conducted a warrants check, which revealed that one of the subjects had three outstanding warrants with a combined bail of \$45,000 for a stolen vehicle and drug related offenses, while the other had a misdemeanor warrant for \$7,500. The subjects were arrested and transported to County Jail.

Trespassing / Area of Castro St. – 08/09/2019 – 1208 Hrs.

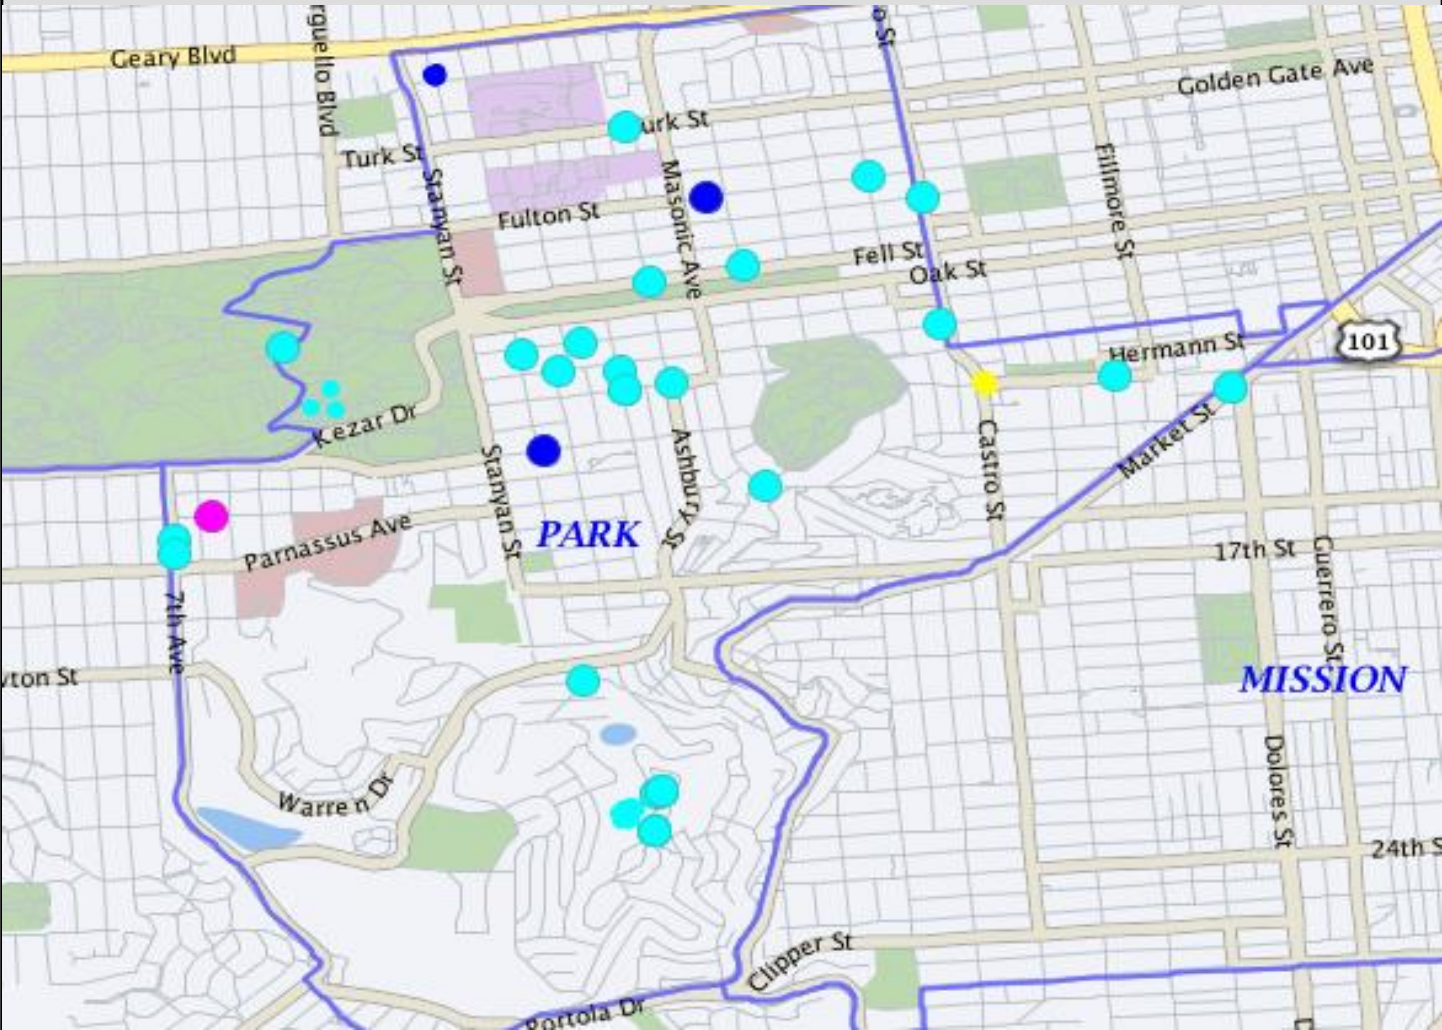

In the early afternoon of August 9th, 2019 officers responded to a call to assist Sutter Health CPMC security officers involved in an altercation with a trespasser. After being released from the hospital in the early morning, the trespasser had repeatedly returned to the hospital after being escorted off the property on multiple occasions throughout the day. The hospital's site manager stated that he wanted to press criminal charges for trespassing. The suspect was cited for trespassing and released from the scene.

Warrant Arrest, Local SF Warrant / Area of Museum Way – 08/11/2019 – 0024 Hrs.

On August 11th, 2019, two officers were dispatched to the Randall Museum regarding a call about a male subject chasing another person at the top of the park. Upon arrival, the officers detained a subject who matched the description from the call. The officers determined he was intoxicated and was unable to care for himself. He was transported to Park Station, where a computer check revealed that he had an outstanding no bail burglary warrant. The subject was booked for his warrant and transported to County Jail.

DISTRACTED DRIVING

Distracted Driving

Distracted driving is anything that takes your eyes or mind off the road. In the smartphone age, distracted driving is the most dangerous when drivers are using their cell phone behind the wheel.

Whether it is talking, emailing, texting, plugging in directions, using an app or scrolling through social media feeds, using a cell phone is not only dangerous, but also illegal.

In 2017, 3,166 people were killed in distracted driving related crashes across the country, or nearly 10 percent of all traffic deaths.

Using a phone to dial, talk or text triples the risk of a driver getting into a crash. Texting is the most alarming distraction. Sending or reading a text takes your eyes off the road for an average of 5 seconds. At 55 mph, that's like driving the length of a football field with your eyes closed.

Other serious driver distractions such as eating, grooming, reaching for objects on the floor, changing clothes or talking with passengers are just as dangerous. The safest thing drivers can do is put down the phone, focus on the road and just drive.

Distracted Driving Prevention

- ✓ Never Text and Drive
- ✓ Silence your phone before you drive
- ✓ Pull over to safe parking spot to make a call
- ✓ Don't text or call someone you know is driving

Cell Phone Law

-  Holding a phone while driving is illegal. Any electronic device must be used in a hands-free manner, such as speaker or voice commands. The law applies when at a stop sign or signal.
-  To use a phone while driving, it must be mounted on the dashboard, windshield (seven-inch square in lower right corner or five-inch square in lower left corner), or center console.
-  When the phone is mounted, drivers can swipe or tap the screen once to activate or deactivate a feature. It is illegal to swipe multiple times, enter information or text.
-  A first offense ticket is \$162, with additional offenses costing even more.
-  You may use your phone while holding it for true emergencies, like calling 911.

For additional driver safety tips and resources, visit gosafelyca.org.

Be part of the solution by resisting the urge to talk or text while driving and "Go Safely, California."

JUST DRIVE

Distracted Driving

It's easy to feel like driving isn't enough when there's so much more to do. It's normal to feel the urge to grab the phone. But we must stay focused on the road. Not only is holding your phone while driving illegal in the State of California, distracted driving is now the number one cause of roadway crashes. Join us in being part of the solution. Grab the wheel with both hands, enjoy the drive and focus on each other. Here are some ways you can prevent driving distracted:

- > Silence your phone before you get behind the wheel and keep it mounted in a legally approved location.
- > Never text and drive or use apps or social media while driving.
- > Do not eat, drink or program your GPS/MP3 player or other devices while driving.
- > If a phone call is necessary or you need to reroute your map, pull over to use those devices.
- > If something falls to the floor, pull over to a safe parking spot before trying to reach it.

ANTI-BIKE THEFT TIPS

LOCK
PROTECT
REGISTER

sfsafe.org/safe-bikes

SAFE BIKES and the SFPD recommend the Sheldon Brown Locking Method.

No locking method is 100% foolproof, but this method is highly effective.

GUIDE FOR LOCKING YOUR BIKE:

- Use the smallest U-lock that works for your bike to minimize the amount of space available for a thief to insert a jack or levers.
- Use a hardened steel U-Lock to secure back wheel inside the rear triangle of the bicycle frame.
- Check to make sure U-lock is secured to an immovable metal object.
- Secure front wheel with cable or second U-lock. Loop cable around the down tube of the bicycle or secure second U-lock to front wheel and down tube.
- Replace quick release skewers and nutted wheels with keyed locking skewers and nuts to ensure wheels and saddles are locked to the bike frame at all times.
- Check with local bike shop for proper installation of locking skewers and advice.

SAFE BIKE REGISTRY

YOU JUST BOUGHT A NEW BICYCLE— NOW WHAT?

FOLLOW THESE STEPS:

- Register** and upload receipt and photos of your bicycle at sfsafe.org/safe-bikes.
- Buy a hardened steel U-lock and a secondary lock** such as a chain or cable (See locking tools list).
- Replace quick release skewers and nutted wheels with uniquely keyed locking skewers and nuts**, which keep wheels and saddles locked to the bike frame at all times.
- Lock** your bicycle in your garage the same way you would on the street.
- Take an urban bicycling workshop** with the San Francisco Bicycle Coalition to learn safe riding practices. Go to sfbike.org for more information.
- Speak with your local bicycle shop** for more help and advice.

TOOLS TO LOCK YOUR BICYCLE

There are many different types of locks for bicycles and many incorrect ways of using them. No locking method is 100% effective.

For best security use a hardened steel U-lock, chain and locking skewers.

- U-lock**
 - Very good deterrent
 - Use the smallest U-lock that works for your bike to minimize the amount of space available for thief to insert a jack or levers
- Chain**
 - Hardened alloy steel with thickness of at least $\frac{3}{8}$ " thick and heaviest is best
- Locking Skewers**
 - Very good deterrent
 - Replace all quick release parts
 - Check local bike shops for proper installation
- Cable**
 - Recommended for secondary locking device
 - Good security for movable parts

PREVENTING BICYCLE THEFT IN GARAGES

Garages and multi-unit apartment buildings with common garage are one of the most vulnerable places for bicycles. Thieves are waiting for the perfect opportunity.

Secure your bicycle in the garage the same way you would on the street!

- Secure to an immovable object or an anchor system.
- Never lock your bike near a window or door.
- Always watch your garage door and make sure it closes completely so unwanted visitors do not enter.
- Contact SAFE at 415-553-1984 or info@sfsafe.org for a residential security survey.

SAFE BIKE REGISTRY

**YOUR

NOW
WHAT?**

- File a police report through sf-police.org or visit your local police district station.
- Notify **SAFE BIKES** at info@sfsafe.org or call 415-553-1984.
- Provide pictures and serial numbers for bicycle with the police report and any identifying marks.
- If you don't have a serial number or pictures, track down your serial number from the point of purchase and/or use stock photos and send them to the investigator immediately.
- File an insurance claim.

INTERNET INVESTIGATIONS

- Post pictures of stolen bicycle to **Craigslist**, set up a **Google alert**, and use **IFTTT.com**.
- If bicycle is found, contact the SFPD investigator. **DO NOT** arrange a meeting and attempt to get your bicycle back.
- Check racklove.com and stolenbikeregistry.com to find your bicycle.

- Resolution – is it good enough for facial recognition.
- Camera position – are they positioned for clear view of suspect.
- Lighting – is it adequate to capture clear images both day and night.
- Image detail – is the recorder set up for best image detail.
- Maintenance – are you maintaining your system properly so it can do its job when needed?

Set Up and Maintenance

- **Backlighting** – when sun is bright at doorway, images in front appear darker or even black. Use another light source inside to counteract back light.
- **Low Frame Rate** – saves on drive space and gives better image quality, but you may not get an image at all (now you see him; now you don't).
- **Obstructions** – displays and other objects blocking view **should be eliminated.**
- **Focus Problems** – must check system regularly to prevent.

Minimum camera resolution should be **480 horizontal lines.**

Good cameras have **faster lenses** (allows more lighting), larger maximum **aperture** opening (lets more light into the focal point of the camera) and controls image brightness (allows brighter images in dim lighting) – the more lighting, the more depth of field (greater depth of field; the more of the scene is in focus).

Focal Length – some cameras zoom in and out while others have a fixed focal length. The type of cameras used depends on what your needs are.

Transaction Areas – anything at a transaction point (cash register, toll booth, etc.), the subject's head should fill at least 15% of the total image in the frame, giving the detail you need.

Lines of Sight – lines of sight are always critical, make sure there are no obstructions.

Site Plan – the right site plan is crucial (retail store blueprint or **diagram**). Key camera spots are at transaction points (cash registers and entry/exit points) – the more cameras, the better.

You want good camera **overlap** (you want multiple chances to capture good images). Extra coverage is also needed for aisles, restrooms and other key points.

Camera Height – placement is very important, make sure it is as close to eye-level as possible. Otherwise, you might lose out to a baseball cap.

With a good site plan you can make sure you don't have any blind spots (you can toy around with camera positions, and do a test recording to see that you are getting what you want).

Interior Lighting – interior lighting can balance bright light from one direction (back lighting) by adding another light source from a different location (add a bank of lights).

Example: Artificial lighting (**inside store**) for cameras may be good in the morning, but by noon, the sun (through a doorway or window) can blow the entire frame out (add lighting to fill in for afternoon sunlight). Adding more light from a different direction balances lighting, giving better camera clarity (if sunlight is shining through large windows you can tent windows or add screens.

Exterior Lighting – if lights are on timers, you must adjust appropriate to seasonal changes (Fall/Winter: gets dark earlier. Spring/Summer: gets dark later).

PARK SMART CAMPAIGN

Park Smart!

THE KEYS TO PARKED CAR SAFETY ARE IN YOUR HANDS!

If you love it, don't leave it.

DON'T TEMPT A CAR THIEF!

Car thieves only need seconds to break into your car. So Park Smart, and especially keep your trunk clear.

Take everything with you.

Park Smart!

Safe Habits to Adopt:

Turn off the ignition
Never leave your car running unattended

Keep your vehicle & tires in good condition
to prevent breakdowns—stranding you in a dark or unfamiliar place

Lock your doors
when you get in your car

See something, say something
If you see a motorist in distress, call 9-1-1 versus stopping to help

Clear your trunk
and take your valuables with you every time you leave your car

If you are being followed,
drive to the nearest police or fire station—a populated area is a good default

DON'T BE A VICTIM OF A BURGLARY!

Burglary Awareness & Prevention Tips for Construction Sites

Securing & Preventing

1. Secure all equipment and vehicles at all times.
2. Take effort to reduce the visibility of tools and equipment secured in vehicles or on job sites.
3. Make use of adequate lighting in conjunction with open chain-link fencing on the perimeter to allow for high visibility to the job site.
4. Strongly consider the use of security systems such as alarms and video surveillance. Ensure signage for such is clearly visible.

1899 Waller Street
San Francisco, CA 94117
(415) 242-5000

Precautionary Measures

1. Photograph all tools. Ensure photographs clearly show the associated serial number and/or distinctive markings.
2. Ensure job site keys are marked "Do Not Duplicate" and are controlled at all times.
3. Attempt to park employee vehicles within visual range of the job site.

Should a Burglary Occur

Immediately contact 911. Be prepared to provide the following information:

- a) Time of incident.
- b) Video (if available).
- c) Items taken (include make, model, description, location taken from, value, photos and serial numbers).
- d) Insurance information.
- e) Owner's information.

Whether you live in a single family home, condo, or a large apartment complex in San Francisco, there are a number of ways you can keep your residence safe and secure. Working together as a community with your neighbors and building management can significantly improve your residential safety.

7 Residential Safety Tips

- 1 **Garage:** When entering or leaving the garage, watch to ensure door shuts completely. Lock stored bikes to a sturdy rack.
- 2 **Car:** Always lock your vehicle when parked in your garage and remove all valuables. Never leave garage door opener in your vehicle when parked outside your home.
- 3 **Spare Key:** Never hide spare keys. If you need to have a spare key available, leave it with a trusted neighbor.

- 4 **Door Buzzer:** When a visitor rings your bell, confirm who it is by intercom before you grant them access. Similarly, never let strangers follow you through the front door.
- 5 **Security Cameras & Alarm Systems:** Cost effective tools for preventing crime and identifying criminals.
- 6 **Light Timers:** Installing timers on the exterior of your residence is an effective and energy efficient way to deter criminal activity.
- 7 **Doors/Windows:** Always keep doors and windows locked.

Door and Window Safety

Doors:

- Should be made of solid wood or metal
- Have a single cylinder deadbolt lock and a 1-inch bolt
- Have a front door viewer or peep hole with a 180-degree range
- Clearly display unit number

Windows:

- Replace if glass is cracked and replace all damaged or missing locks
- Ground level windows should be burglary resistant: consider purchasing windows with reinforcement wire, laminate, or tempered glass
- Polycarbonate plastic or metal grates can be installed over existing ground level windows
- Windows above ground level are not considered secure: if used for ventilation, lock in position and keep open no more than 3 inches

Keep property in good repair. Maintain visibility to your neighbors for increased safety.

PARK STATION'S VISION & VALUES**Captain Una Bailey**

I absolutely love police work and I love all that we as SFPD can do to help victims, solve and prevent crimes, and I am a firm believer in the power of the community. We, as a department, are only as successful as our partnerships with the community. I learned very early in my career how important community involvement is both in solving and preventing crimes and also in the creation of safe desirable neighborhoods. I look forward to building and maintaining community involvement and relationships over the coming years. I know that when we work together, we will create a district that will be safe and sound for all.

WHO AND WHEN TO CALL?

3-1-1: Please contact 3-1-1 when the issue is a not an emergency, yet requires City services or, if you simply have questions regarding City services. Non-emergency situations include the following examples: damage to public property, public trees that requires pruning, defective streets or sidewalks, homeless-related issues. 3-1-1 was developed to help the community inform the appropriate City agency regarding a service request.

SF 3-1-1 APP is available to use on your mobile device. Download the APP and its easy to use for many Non-emergency.

Non- Emergency San Francisco Dispatch Line: Please call the non- emergency dispatch line (**415-553-0123**) when the scenario does not need immediate response from the San Francisco Police Department. For example, if there is a loud party, a group of loud juveniles loitering in front of your residence, noise complaints, doubled parked vehicles, suspicious activities, or a homeless/nuisance related issue. **The non-emergency line is for situations that require the police, but do not require an immediate police response.**

9-1-1, please call 9-1-1 immediately if there is a police, fire, medical, or any other emergency. The purpose of San Francisco's 9-1-1 Emergency Telephone System is to provide the community an immediate response of police, fire, or medical personnel for emergency occurrences. To accomplish this, it is imperative that the calls received on the 9-1-1 line be restricted to those situations that require immediate dispatching of police, paramedic, or fire department personnel. For example, crimes or fires that are in-progress, or medical emergencies.

The San Francisco Police Department district station telephone numbers and emails are not monitored. Questions will be answered in the order we receive them. Station emails are not for making police reports nor for reporting a crime. If you need to make a police report, you can call 415-553-0123 or go to your district police station. **If you have an emergency, please call 9-1-1.**
