Hello all,

We need your help.

As everyone knows San Francisco has had a major issue with vehicle break ins/ theft from vehicles. In the Park district we continue to see a reduction for 2019. However historically we do see an increase in this crime in the Park District during the months of August, September and October. For the most part the criminals victimize tourists but we still have San Francisco residents who are victims. Here is where we need your help.

#1 Always take the time to remove all valuables from your vehicle when you leave your parked car even if it is only for a brief period of time.

#2 If you are placing items in your trunk to ensure they are out of sight of potential thieves do so before you park your car so any on looking thief does not see you do this.

#3 If you see any tourists on you street parking their car please educate them about not leaving anything in their vehicle while they shop or sight see.

#4 There are a number of flyers in our newsletter regarding vehicle break ins please feel free to distribute to your neighbors or any potential victim in an effort to stop this crime.

I know when we all work together we can achieve great things. Let's see what happens if we all work together on this. I believe we can make a significant impact on the number of San Francisco victims and in addition our visitors.

Thank you all, be safe and don't leave anything visible in your car, please.

COMMUNITY ENGAGEMENT

Park Smart!

Officers from Park Station contacted residents and tourists in Golden Gate Park and reminded them not to leave any visible property in their vehicle while visiting the park. Officer Davies had the opportunity to talk with this family from Toronto Canada. We also contacted a family visiting from France and several residents from the City visiting the park.

NATIONAL NIGHT OUT

OFFICERS OF THE MONTH**Captain Bailey has named Jeremy Mitchell and Orpheos Tarbox,
Officers of the Month for the month of August.**

These two outstanding Officers have served the citizens of San Francisco for 18 years, they both attended the San Francisco Police Academy class of 203rd. In 2003 they came to Park Station and have been partners ever since. The residents of the Park District are fortunate to have these extremely dedicated Officers protecting them daily. Officer Mitchell and Officer Tarbox have helped many citizens over the years and have arrested numerous criminals.

SCHOOL SAFETY TIPS

With a new school year starting, here are some Safety Tips when walking to school.

Walk to School Safely

- ◆ Plan a safe route, always walk with an adult or a friend. Wear bright colored clothes if possible.
- ◆ Walk on the sidewalk, watch for cars at every driveway and intersection.
- ◆ Always use crosswalks or intersections when crossing the street, do not cross mid block and don't forget to activate the crosswalk signal if one is available.
- ◆ Look before you cross the street, look left, right and left again, do not cross the street if you see a car coming, even if you have the right-a-way. The driver may not see you. Try to make eye contact with the driver before you cross the street.
- ◆ Do not walk with earbuds or headphones on.
- ◆ Do not walk while texting or talking on the phone, be aware of your surroundings.

SCHOOL SAFETY TIPS

Driving safe around schools

- ◆ Be aware of school zones, pay extra attention around schools, playgrounds, and parks. A young child may dart in front of your vehicle.
- ◆ Don't block the crosswalk when stopped at a stop sign, red light or waiting to make a turn. This forces pedestrians to go around your vehicle and could put them in the path of moving traffic.
- ◆ Yield to pedestrians crossing the street or intersection. Always stop for a school crossing guard holding up a stop sign.
- ◆ Never pass a vehicle stopped for pedestrians.
- ◆ Always stop for pedestrians even if you have the right of way.
- ◆ Never pass a school bus when it is stopped to unload children.

SOME OF PARK STATION'S ARRESTS FOR THE WEEK**Warrant Arrest, Enroute to Adult Authority / Area of Church St. – 08/19/2019 – 1722 Hrs.**

On August 19th, 2019, two officers were on patrol in the area of Church Street when they observed two subjects sitting on the sidewalk with open containers of alcohol. The officers made contact with the subjects and discovered that one of them had an outstanding warrant for his arrest out of Santa Rosa. This subject was arrested for his warrant the other subject was cited for having an open container of alcohol, the subject with the warrant was transported to Park Police Station for booking.

Driving, No License Issued; Warrant Arrest, Enroute to Outside Jurisdiction / Area of Fell St. – 08/21/2019 – 0111 Hrs.

In the early hours of August 21st, 2019, two officers were driving westbound on Fell Street when they observed a vehicle driving without a rear license plate. The officers conducted a traffic stop and made contact with the driver, who admitted that he did not possess a license. A computer check confirmed that the driver did not have a license, and a computer check on the passenger revealed he had two active misdemeanor warrants. Consequently, the driver was cited and the passenger was arrested for the warrants and transported to County Jail

Vehicle, Recovered, Auto; Stolen Property, Possession/Receiving with Knowledge; Possession of Ammunition by Prohibited Persons; Narcotics Paraphernalia, Possession of; Probation Violation 08/21/19 1249 Hrs.

On 08/21/19 at approximately 1249 hours, Park station officers were conducting heightened patrol at Twin Peaks parking lots due to a high number of auto burglaries, Park officers observed a male washing the rear window of a Toyota Prius while dancing to loud music. The officers conducted a computer check of the vehicle's license plate which revealed the vehicle to be stolen.

The officers contacted and apprehended the suspect without incident. A computer check revealed that the suspect was on active probation and had a prior felony conviction. A search of the vehicle found indicia inside belonging to the suspect, including a jail wristband with the suspect's name and photograph. Also located in the vehicle was an unfired cartridge and glass pipe with suspected narcotics residue.

The owner of the vehicle responded to the scene and confirmed that the unfired cartridge and narcotics paraphernalia did not belong to him. The victim also advised the officers that a brand new pair of "New Balance" tennis shoes were missing from inside of his vehicle. At the time of the arrest, the suspect was wearing a pair of "New Balance" tennis shoes and were identified by the victim as belonging to him. The suspect was arrested and booked for the above charges.

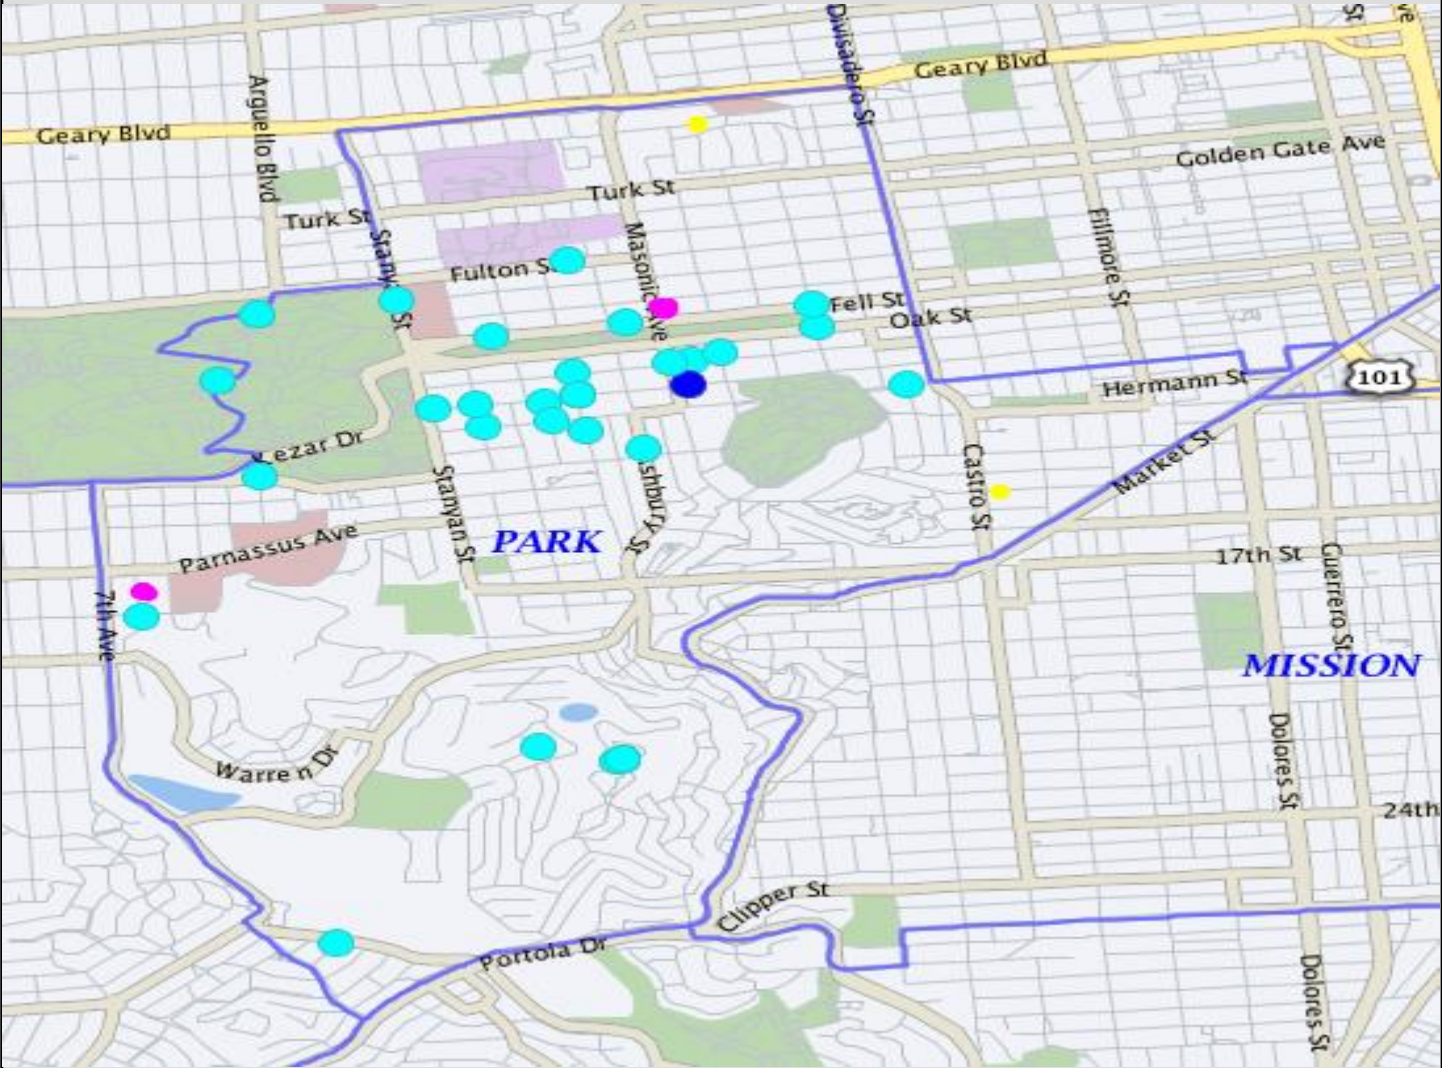

Firearm Possession in School Zone; Firearm, Carrying Loaded with Intent to Commit Felony; Firearm, Possession of Loaded; Marijuana, Possession for Sale; Resisting, Delaying or Obstructing Police Officers Duties; Possession of Burglary Tools.

On 08/21/19 at approximately 1619 hours, Park station officers were responding to a possible mentally disturbed individual in the area of the 1500 block of Haight Street. The subject was walking in and out of businesses, shouting unintelligible statements and possibly assaulting an unidentified individual. While enroute to the area, the officers observed the subject walking on Haight at Buena Vista, wearing a backpack. The area was within 1000 feet of a school that was in session.

The officers exited their unmarked police unit and attempted to contact the subject. The subject took off his backpack and positioned himself in a combat stance. The officers gave commands for the subject to stand-down, but he did not comply. As the officers tried to physically detain the subject, he fled on foot. Park Station officers pursued the subject and were able to take him into custody. Officers recovered the suspect's backpack and found a loaded handgun inside. The handgun was not registered to the subject. Also discovered inside of the backpack was a hammer and a large quantity of marijuana. The suspect was arrested and booked accordingly for the above listed charges.

DISTRACTED DRIVING

Distracted Driving

Distracted driving is anything that takes your eyes or mind off the road. In the smartphone age, distracted driving is the most dangerous when drivers are using their cell phone behind the wheel.

Whether it is talking, emailing, texting, plugging in directions, using an app or scrolling through social media feeds, using a cell phone is not only dangerous, but also illegal.

In 2017, 3,166 people were killed in distracted driving related crashes across the country, or nearly 10 percent of all traffic deaths.

Using a phone to dial, talk or text triples the risk of a driver getting into a crash. Texting is the most alarming distraction. Sending or reading a text takes your eyes off the road for an average of 5 seconds. At 55 mph, that's like driving the length of a football field with your eyes closed.

Other serious driver distractions such as eating, grooming, reaching for objects on the floor, changing clothes or talking with passengers are just as dangerous. The safest thing drivers can do is put down the phone, focus on the road and just drive.

Distracted Driving Prevention

- ✓ Never Text and Drive
- ✓ Silence your phone before you drive
- ✓ Pull over to safe parking spot to make a call
- ✓ Don't text or call someone you know is driving

Cell Phone Law

-  Holding a phone while driving is illegal. Any electronic device must be used in a hands-free manner, such as speaker or voice commands. The law applies when at a stop sign or signal.
-  To use a phone while driving, it must be mounted on the dashboard, windshield (seven-inch square in lower right corner or five-inch square in lower left corner), or center console.
-  When the phone is mounted, drivers can swipe or tap the screen once to activate or deactivate a feature. It is illegal to swipe multiple times, enter information or text.
-  A first offense ticket is \$162, with additional offenses costing even more.
-  You may use your phone while holding it for true emergencies, like calling 911.

JUST DRIVE

Distracted Driving

It's easy to feel like driving isn't enough when there's so much more to do. It's normal to feel the urge to grab the phone. But we must stay focused on the road. Not only is holding your phone while driving illegal in the State of California, distracted driving is now the number one cause of roadway crashes. Join us in being part of the solution. Grab the wheel with both hands, enjoy the drive and focus on each other. Here are some ways you can prevent driving distracted:

- > Silence your phone before you get behind the wheel and keep it mounted in a legally approved location.
- > Never text and drive or use apps or social media while driving.
- > Do not eat, drink or program your GPS/MP3 player or other devices while driving.
- > If a phone call is necessary or you need to reroute your map, pull over to use those devices.
- > If something falls to the floor, pull over to a safe parking spot before trying to reach it.

ANTI-BIKE THEFT TIPS

LOCK

sfsafe.org/safe-bikes

SAFE BIKES and the SFPD recommend the Sheldon Brown Locking Method.

No locking method is 100% foolproof, but this method is highly effective.

GUIDE FOR LOCKING YOUR BIKE:

- Use the smallest U-lock that works for your bike to minimize the amount of space available for a thief to insert a jack or levers.
- Use a hardened steel U-Lock to secure back wheel inside the rear triangle of the bicycle frame.
- Check to make sure U-lock is secured to an immovable metal object.
- Secure front wheel with cable or second U-lock. Loop cable around the down tube of the bicycle or secure second U-lock to front wheel and down tube.
- Replace quick release skewers and nutted wheels with keyed locking skewers and nuts to ensure wheels and saddles are locked to the bike frame at all times.
- Check with local bike shop for proper installation of locking skewers and advice.

SAFE BIKE REGISTRY

YOU JUST BOUGHT A NEW BICYCLE— NOW WHAT?

FOLLOW THESE STEPS:

- Register** and upload receipt and photos of your bicycle at sfsafe.org/safe-bikes.
- Buy a hardened steel U-lock and a secondary lock** such as a chain or cable (See locking tools list).
- Replace quick release skewers and nutted wheels with uniquely keyed locking skewers and nuts**, which keep wheels and saddles locked to the bike frame at all times.
- Lock** your bicycle in your garage the same way you would on the street.
- Take an urban bicycling workshop** with the San Francisco Bicycle Coalition to learn safe riding practices. Go to sfbike.org for more information.
- Speak with your local bicycle shop** for more help and advice.

TOOLS TO LOCK YOUR BICYCLE

There are many different types of locks for bicycles and many incorrect ways of using them. No locking method is 100% effective.

For best security use a hardened steel U-lock, chain and locking skewers.

- U-lock**
 - Very good deterrent
 - Use the smallest U-lock that works for your bike to minimize the amount of space available for thief to insert a jack or levers
- Chain**
 - Hardened alloy steel with thickness of at least $\frac{3}{8}$ " thick and heaviest is best
- Locking Skewers**
 - Very good deterrent
 - Replace all quick release parts
 - Check local bike shops for proper installation
- Cable**
 - Recommended for secondary locking device
 - Good security for movable parts

PREVENTING BICYCLE THEFT IN GARAGES

Garages and multi-unit apartment buildings with common garage are one of the most vulnerable places for bicycles. Thieves are waiting for the perfect opportunity.

Secure your bicycle in the garage the same way you would on the street!

- Secure to an immovable object or an anchor system.
- Never lock your bike near a window or door.
- Always watch your garage door and make sure it closes completely so unwanted visitors do not enter.
- Contact SAFE at 415-553-1984 or info@sfsafe.org for a residential security survey.

Overview

Note: The following information is specific to commercial and retail establishments; however, can be applied to any location utilizing video surveillance.

Basic set up and maintenance problems can reduce the effectiveness of many systems.

- Resolution – is it good enough for facial recognition.
- Camera position – are they positioned for clear view of suspect.
- Lighting – is it adequate to capture clear images both day and night.
- Image detail – is the recorder set up for best image detail.
- Maintenance – are you maintaining your system properly so it can do its job when needed?

Set Up and Maintenance

- **Backlighting** – when sun is bright at doorway, images in front appear darker or even black. Use another light source inside to counteract back light.
- **Low Frame Rate** – saves on drive space and gives better image quality, but you may not get an image at all (now you see him; now you don't).
- **Obstructions** – displays and other objects blocking view **should be eliminated.**
- **Focus Problems** – must check system regularly to prevent.

Minimum camera resolution should be **480 horizontal lines.**

Good cameras have **faster lenses** (allows more lighting), larger maximum **aperture** opening (lets more light into the focal point of the camera) and controls image brightness (allows brighter images in dim lighting) – the more lighting, the more depth of field (greater depth of field; the more of the scene is in focus).

Focal Length – some cameras zoom in and out while others have a fixed focal length. The type of cameras used depends on what your needs are.

Transaction Areas – anything at a transaction point (cash register, toll booth, etc.), the subject's head should fill at least 15% of the total image in the frame, giving the detail you need.

Lines of Sight – lines of sight are always critical, make sure there are no obstructions.

Site Plan – the right site plan is crucial (retail store blueprint or **diagram**). Key camera spots are at transaction points (cash registers and entry/exit points) – the more cameras, the better.

You want good camera **overlap** (you want multiple chances to capture good images). Extra coverage is also needed for aisles, restrooms and other key points.

Camera Height – placement is very important, make sure it is as close to eye-level as possible. Otherwise, you might lose out to a baseball cap.

With a good site plan you can make sure you don't have any blind spots (you can toy around with camera positions, and do a test recording to see that you are getting what you want).

Interior Lighting – interior lighting can balance bright light from one direction (back lighting) by adding another light source from a different location (add a bank of lights).

Example: Artificial lighting (**inside store**) for cameras may be good in the morning, but by noon, the sun (through a doorway or window) can blow the entire frame out (add lighting to fill in for afternoon sunlight). Adding more light from a different direction balances lighting, giving better camera clarity (if sunlight is shining through large windows you can tent windows or add screens.

Exterior Lighting – if lights are on timers, you must adjust appropriate to seasonal changes (Fall/Winter: gets dark earlier. Spring/Summer: gets dark later).

PARK SMART CAMPAIGN

Park Smart!

THE KEYS TO PARKED CAR SAFETY ARE IN YOUR HANDS!

If you love it, don't leave it.

DON'T TEMPT A CAR THIEF!

Car thieves only need seconds to break into your car. So Park Smart, and especially keep your trunk clear.

Take everything with you.

Park Smart!

Safe Habits to Adopt:

Turn off the ignition
Never leave your car running unattended

Keep your vehicle & tires in good condition
to prevent breakdowns—stranding you in a dark or unfamiliar place

Lock your doors
when you get in your car

See something, say something
If you see a motorist in distress, call 9-1-1 versus stopping to help

Clear your trunk
and take your valuables with you every time you leave your car

If you are being followed,
drive to the nearest police or fire station—a populated area is a good default

DON'T BE A VICTIM OF A BURGLARY!

Burglary Awareness & Prevention Tips for Construction Sites

Securing & Preventing

1. Secure all equipment and vehicles at all times.
2. Take effort to reduce the visibility of tools and equipment secured in vehicles or on job sites.
3. Make use of adequate lighting in conjunction with open chain-link fencing on the perimeter to allow for high visibility to the job site.
4. Strongly consider the use of security systems such as alarms and video surveillance. Ensure signage for such is clearly visible.

1899 Waller Street
San Francisco, CA 94117
(415) 242-5000

Precautionary Measures

1. Photograph all tools. Ensure photographs clearly show the associated serial number and/or distinctive markings.
2. Ensure job site keys are marked "Do Not Duplicate" and are controlled at all times.
3. Attempt to park employee vehicles within visual range of the job site.

Should a Burglary Occur

Immediately contact 911. Be prepared to provide the following information:

- a) Time of incident.
- b) Video (if available).
- c) Items taken (include make, model, description, location taken from, value, photos and serial numbers).
- d) Insurance information.
- e) Owner's information.

Whether you live in a single family home, condo, or a large apartment complex in San Francisco, there are a number of ways you can keep your residence safe and secure. Working together as a community with your neighbors and building management can significantly improve your residential safety.

7 Residential Safety Tips

- 1 **Garage:** When entering or leaving the garage, watch to ensure door shuts completely. Lock stored bikes to a sturdy rack.
- 2 **Car:** Always lock your vehicle when parked in your garage and remove all valuables. Never leave garage door opener in your vehicle when parked outside your home.
- 3 **Spare Key:** Never hide spare keys. If you need to have a spare key available, leave it with a trusted neighbor.

- 4 **Door Buzzer:** When a visitor rings your bell, confirm who it is by intercom before you grant them access. Similarly, never let strangers follow you through the front door.
- 5 **Security Cameras & Alarm Systems:** Cost effective tools for preventing crime and identifying criminals.
- 6 **Light Timers:** Installing timers on the exterior of your residence is an effective and energy efficient way to deter criminal activity.
- 7 **Doors/Windows:** Always keep doors and windows locked.

Door and Window Safety

Doors:

- Should be made of solid wood or metal
- Have a single cylinder deadbolt lock and a 1-inch bolt
- Have a front door viewer or peep hole with a 180-degree range
- Clearly display unit number

Windows:

- Replace if glass is cracked and replace all damaged or missing locks
- Ground level windows should be burglary resistant: consider purchasing windows with reinforcement wire, laminate, or tempered glass
- Polycarbonate plastic or metal grates can be installed over existing ground level windows
- Windows above ground level are not considered secure: if used for ventilation, lock in position and keep open no more than 3 inches

Keep property in good repair. Maintain visibility to your neighbors for increased safety.

PARK STATION'S VISION & VALUES**Captain Una Bailey**

I absolutely love police work and I love all that we as SFPD can do to help victims, solve and prevent crimes, and I am a firm believer in the power of the community. We, as a department, are only as successful as our partnerships with the community. I learned very early in my career how important community involvement is both in solving and preventing crimes and also in the creation of safe desirable neighborhoods. I look forward to building and maintaining community involvement and relationships over the coming years. I know that when we work together, we will create a district that will be safe and sound for all.

WHO AND WHEN TO CALL?

3-1-1: Please contact 3-1-1 when the issue is a not an emergency, yet requires City services or, if you simply have questions regarding City services. Non-emergency situations include the following examples: damage to public property, public trees that requires pruning, defective streets or sidewalks, homeless-related issues. 3-1-1 was developed to help the community inform the appropriate City agency regarding a service request.

SF 3-1-1 APP is available to use on your mobile device. Download the APP and its easy to use for many Non-emergency.

Non- Emergency San Francisco Dispatch Line: Please call the non- emergency dispatch line (**415-553-0123**) when the scenario does not need immediate response from the San Francisco Police Department. For example, if there is a loud party, a group of loud juveniles loitering in front of your residence, noise complaints, doubled parked vehicles, suspicious activities, or a homeless/nuisance related issue. **The non-emergency line is for situations that require the police, but do not require an immediate police response.**

9-1-1, please call 9-1-1 immediately if there is a police, fire, medical, or any other emergency. The purpose of San Francisco's 9-1-1 Emergency Telephone System is to provide the community an immediate response of police, fire, or medical personnel for emergency occurrences. To accomplish this, it is imperative that the calls received on the 9-1-1 line be restricted to those situations that require immediate dispatching of police, paramedic, or fire department personnel. For example, crimes or fires that are in-progress, or medical emergencies.

The San Francisco Police Department district station telephone numbers and emails are not monitored. Questions will be answered in the order we receive them. Station emails are not for making police reports nor for reporting a crime. If you need to make a police report, you can call 415-553-0123 or go to your district police station. **If you have an emergency, please call 9-1-1.**
