Hello all,

As everyone knows San Francisco has a serious issue with vehicle break-ins. I am happy to report that San Francisco residents in the Park District have become a small portion of our victims. Most of our vehicle break-ins are the unsuspecting tourists. I want to review with you again how not to be a victim of this crime so we can ensure we continue this downward trend for San Francisco residents.

#1 Always take the time to remove all valuables from your vehicle when you leave your parked car even if it is only for a brief period of time.

#2 If you are placing items in your trunk to ensure they are out of sight of potential thieves do so before you park your car so any on looking thief does not see you do this.

#3 If you see any tourists on you street parking their car please educate them about not leaving anything in their vehicle while they shop or sight see.

#4 There are a number of flyers in our newsletter regarding vehicle break-ins please feel free to distribute to your neighbors or any potential victim in an effort to stop this crime.

I know when we all work together we can achieve great things. Lets see what happens if we all work together on this. I believe we can make a significant impact on the number of San Francisco victims and in addition our visitors.

Thank you all, be safe and don't leave anything visible in your car, please.

Captain Una Bailey

## COLE VALLEY STREET FAIR

On Sunday September 29, 2019, Captain Bailey visited the 17th annual Cole Valley Fair. The above photo shows Captain Bailey with ALERT volunteer members and members of the Cole Valley Improvement Association.

One of the many booths at the Cole Valley Fair was local business Wee Scotty. Wee Scotty located at 609 Clement Street is a fashion school, boutique and design house. Lynne and her staff have taught numerous children to sew, helped countless brides look their best on their wedding day, and designed clothing and prototypes for many local and national brands.

**SOME OF PARK STATION'S ARRESTS FOR THE WEEK****Traffic Collision, Hit & Run, Property Damage; Evading a Police Officer Recklessly; Conspiracy; Resisting and Delaying; Possession of Burglary Tools, Possession of Stolen Property, 10/8/19, 1412 Hrs. Area of Clayton and Waller Street.**

On 10/08/19 at approximately 1412 hours, Park Station Officers attempted to conduct a traffic stop at Clayton/Waller on a vehicle showing a cracked tail light and improper paper plates. The vehicle failed to yield to the officer's red lights and siren, fleeing the officers in a reckless manner. The officers did not initiate a pursuit based on safety.

Several minutes later, the officers were dispatched to a traffic/Hit and Run at Oak Street and Baker Street (DMV parking lot). Upon arrival, the officers recognized the hit and run vehicle as the same vehicle which evaded them prior. Witnesses and victims directed the officers to several suspects who fled from the vehicle and into the Panhandle.

Park station officers were able to detain the three subjects who fled the vehicle. A cold show was conducted which positively identified the detained suspects as the hit and run suspects. A search of the H&R vehicle produced reported stolen property and burglary tools.

After further investigation, the suspects were arrested and booked accordingly for the above listed charges.

**Warrant Arrest, Local SF Warrant, Trespassing, 10/08/19, 0855 HRS. Area of Haight St**

On 10/08/19 at 0855 hours, officers were driving westbound on Haight St and observed an individual standing in front of a business on Haight Street that had a posted 'No Trespassing' sign, in violation of 25(a) MPC. Officers contacted the subject and conducted a warrant check which showed that the subject had an active local misdemeanor warrant for \$5,000 for driving under the influence of alcohol. Officers placed the subject under arrest for the warrant and no trespassing, he was transported to county jail.

**Warrant Arrest, Local SF Warrant, 10/08/19, 0938 HRS. Area of Haight Street**

On 10/08/19 at 0938 hours, officers were driving on Haight St crossing the intersection of Shrader Street when they observed a subject crossing west on Shrader Street outside of the marked crosswalk in violation of 21954(a) CVC. Officers stopped the subject and a computer check revealed that there was a local misdemeanor warrant for \$5,000 for battery. Officers placed the subject under arrest and transported him back to Park Station. Subject was later booked and transported to SF County Jail #1.

**Methamphetamine Offense, Trespassing, Warrant Arrest, Enroute to Outside Jurisdiction, 10/09/19, 1456 HRS, Area of Ord Ct.**

On 10/09/19 approximately 1456 hours, officers responded to the location above regarding a possible burglary in progress. Officers noticed that the front door was unsecured. The Officers announced themselves as Police Officers and subject #1 and subject #2 came to the front door. Officers detained both subjects and conducted a protective sweep of the house, no other individuals were located inside the house. Officers contacted the trustee of the estate, they stated that subject #1 was allowed to be in the residence, but not subject #2. A warrant check was conducted and subject #1 was released on scene due to no warrants. Subject #2 had a drug warrant for \$20,000 from San Jose Police Department. Officers placed subject #2 under arrest, during an arrest search methamphetamine was located on subject #2. Officers transported subject #2 to Park Station for booking and he was later transported to county Jail.

**SOME OF PARK STATION'S ARRESTS FOR THE WEEK****Firearm, Possession of Loaded; Firearm, Loaded, in Vehicle, Possession or Use; Vehicle Registration, False Evidence; Traffic Violation Arrest, 10/12/19, 1118 Hrs.**

On 10/12/19 at approximately 1118 hours, Park Station officers observed a vehicle with false registration at Masonic Avenue at Page Street. The vehicle license plate displayed a yellow 2020 sticker, but a DMV computer inquiry showed the registration to be expired as of 01/2019. The officers conducted a traffic stop on the vehicle and its two occupants.

Prior to the vehicle stopping, the officers saw the occupants make furtive movements within the front seat area. When the officers approached the vehicle, they could smell a strong odor of freshly burnt marijuana. In addition to the marijuana smell, the passenger was not wearing a seatbelt. A computer check of both occupants revealed that the passenger was on felony probation for assault. Both subjects were asked to exit the vehicle and a probation search was conducted on the passenger.

A search of the passenger was performed and a loaded Glock 43x was found in the front pocket of his jacket. This particular weapon is highly restricted in California and is sold only to law enforcement. A check of the weapon showed that it was never registered. A search of the vehicle was conducted and suspected marijuana was found inside. Both subjects were mirandized. The driver admitted to falsifying the registration. The passenger invoked his rights.

The vehicle was towed for registration expired over six months. After further investigation, the suspects were arrested and booked accordingly for the above listed charges

**Firearm, Possession of Loaded; Firearm, Loaded, in Vehicle, Possession or Use; Driving, License Suspended or Revoked; Traffic Violation 10/09/19, 1141 Hrs.**

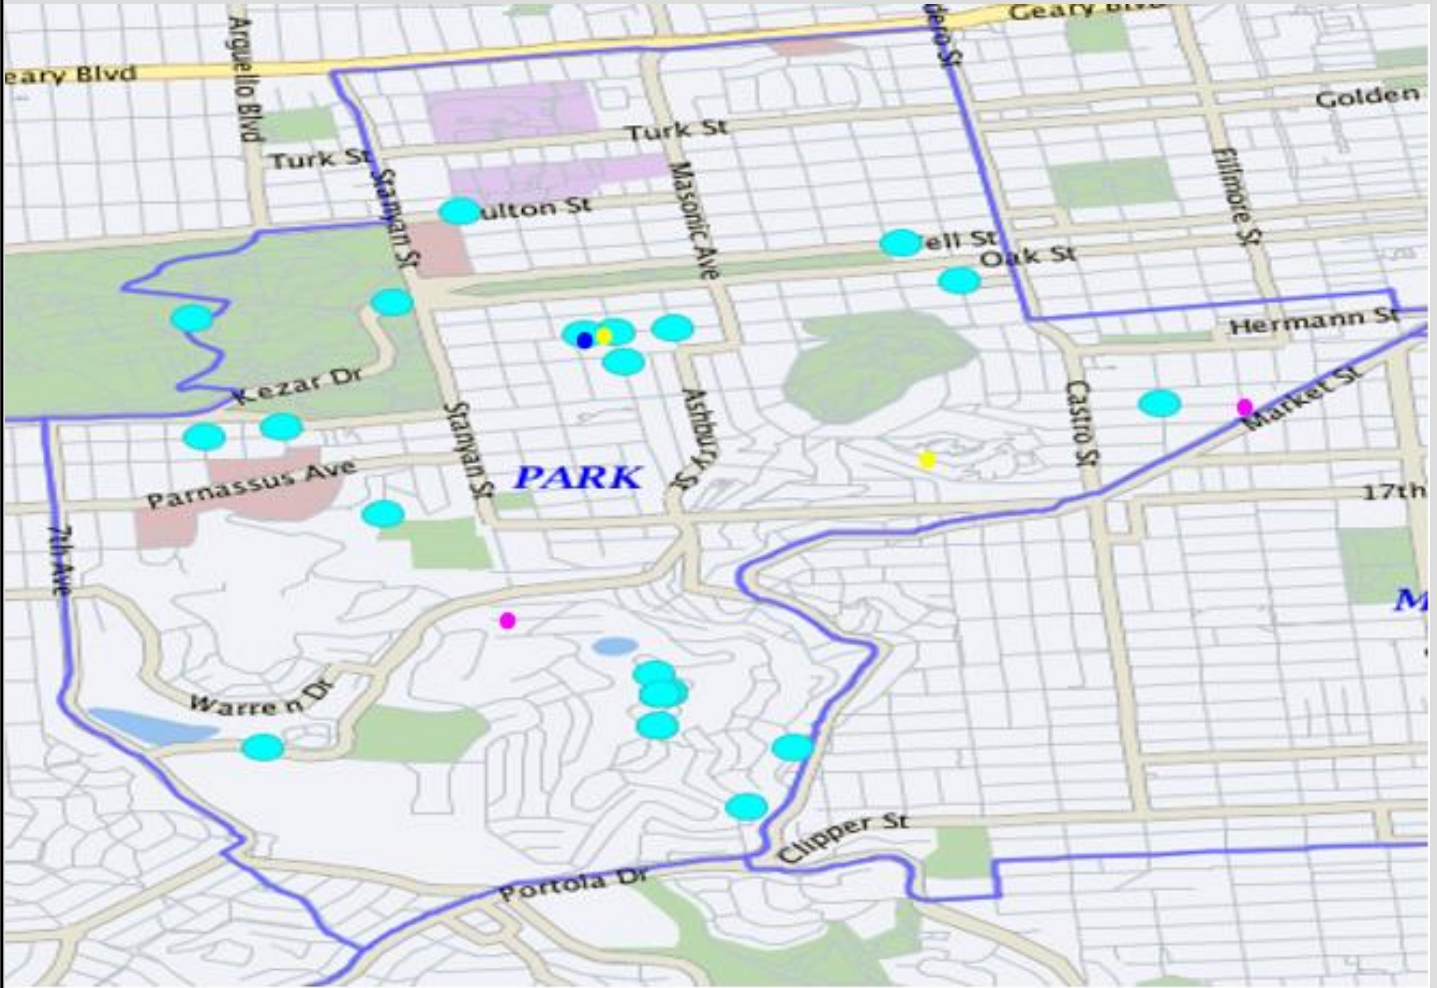

On 10/09/19 at approximately 1141 hours, Officers were on patrol in the area of Church Street when they observed a vehicle in a transit only lane, in violation of 21655.1(a) CVC. The officers conducted a traffic stop and contacted the driver. A computer check on the driver revealed that he had a suspended driver's license. Since the driver had prior arrest for driving on a suspended license, his vehicle would be towed. The driver was placed under arrest and the officers conducted a vehicle inventory search. During the search officers located a black backpack in the back seat of the vehicle that belonged to the driver. Inside the backpack officers located a black Taurus handgun with a fully loaded magazine.

The suspect was transported back to Park Station. During the arrest search of the suspect two unfired cartridges were located on the suspect. With further investigation it was determined that the handgun was not registered. The firearm, unfired cartridges and magazine were booked into evidence at Park Station. The suspect was cited for the above violation and released.

# DISTRACTED DRIVING

## Distracted Driving

Distracted driving is anything that takes your eyes or mind off the road. In the smartphone age, distracted driving is the most dangerous when drivers are using their cell phone behind the wheel.

Whether it is talking, emailing, texting, plugging in directions, using an app or scrolling through social media feeds, using a cell phone is not only dangerous, but also illegal.

In 2017, 3,166 people were killed in distracted driving related crashes across the country, or nearly 10 percent of all traffic deaths.

Using a phone to dial, talk or text triples the risk of a driver getting into a crash. Texting is the most alarming distraction. Sending or reading a text takes your eyes off the road for an average of 5 seconds. At 55 mph, that's like driving the length of a football field with your eyes closed.

Other serious driver distractions such as eating, grooming, reaching for objects on the floor, changing clothes or talking with passengers are just as dangerous. The safest thing drivers can do is put down the phone, focus on the road and just drive.

### Distracted Driving Prevention

- ✓ Never Text and Drive
- ✓ Silence your phone before you drive
- ✓ Pull over to safe parking spot to make a call
- ✓ Don't text or call someone you know is driving

## Cell Phone Law

-  Holding a phone while driving is illegal. Any electronic device must be used in a hands-free manner, such as speaker or voice commands. The law applies when at a stop sign or signal.
-  To use a phone while driving, it must be mounted on the dashboard, windshield (seven-inch square in lower right corner or five-inch square in lower left corner), or center console.
-  When the phone is mounted, drivers can swipe or tap the screen once to activate or deactivate a feature. It is illegal to swipe multiple times, enter information or text.
-  A first offense ticket is \$162, with additional offenses costing even more.
-  You may use your phone while holding it for true emergencies, like calling 911.

For additional driver safety tips and resources, visit [gosafelyca.org](http://gosafelyca.org).

Be part of the solution by resisting the urge to talk or text while driving and "Go Safely, California."

CALIFORNIA

CALIFORNIA OFFICE OF TRAFFIC SAFETY

## We're all in it together.

## Distracted Driving

It's easy to feel like driving isn't enough when there's so much more to do. It's normal to feel the urge to grab the phone. But we must stay focused on the road. Not only is holding your phone while driving illegal in the State of California, distracted driving is now the number one cause of roadway crashes. Join us in being part of the solution. Grab the wheel with both hands, enjoy the drive and focus on each other. Here are some ways you can prevent driving distracted:

- > Silence your phone before you get behind the wheel and keep it mounted in a legally approved location.
- > Never text and drive or use apps or social media while driving.
- > Do not eat, drink or program your GPS/MP3 player or other devices while driving.
- > If a phone call is necessary or you need to reroute your map, pull over to use those devices.
- > If something falls to the floor, pull over to a safe parking spot before trying to reach it.

### ANTI-BIKE THEFT TIPS

LOCK  
PROTECT  
REGISTER

[sfsafe.org/safe-bikes](https://sfsafe.org/safe-bikes)

SAFE BIKES and the SFPD recommend the Sheldon Brown Locking Method.

No locking method is 100% foolproof, but this method is highly effective.

### GUIDE FOR LOCKING YOUR BIKE:

- Use the smallest U-lock that works for your bike to minimize the amount of space available for a thief to insert a jack or levers.
- Use a hardened steel U-Lock to secure back wheel inside the rear triangle of the bicycle frame.
- Check to make sure U-lock is secured to an immovable metal object.
- Secure front wheel with cable or second U-lock. Loop cable around the down tube of the bicycle or secure second U-lock to front wheel and down tube.
- Replace quick release skewers and nutted wheels with keyed locking skewers and nuts to ensure wheels and saddles are locked to the bike frame at all times.
- Check with local bike shop for proper installation of locking skewers and advice.

## SAFE BIKE REGISTRY

## YOU JUST BOUGHT A NEW BICYCLE— NOW WHAT?

### FOLLOW THESE STEPS:

- Register** and upload receipt and photos of your bicycle at [sfsafe.org/safe-bikes](https://sfsafe.org/safe-bikes).
- Buy a hardened steel U-lock and a secondary lock** such as a chain or cable (See locking tools list).
- Replace quick release skewers and nutted wheels with uniquely keyed locking skewers and nuts**, which keep wheels and saddles locked to the bike frame at all times.
- Lock** your bicycle in your garage the same way you would on the street.
- Take an urban bicycling workshop** with the San Francisco Bicycle Coalition to learn safe riding practices. Go to [sfbike.org](https://sfbike.org) for more information.
- Speak with your local bicycle shop** for more help and advice.

### TOOLS TO LOCK YOUR BICYCLE

There are many different types of locks for bicycles and many incorrect ways of using them. No locking method is 100% effective.

**For best security use a hardened steel U-lock, chain and locking skewers.**

- U-lock**
  - Very good deterrent
  - Use the smallest U-lock that works for your bike to minimize the amount of space available for thief to insert a jack or levers
- Chain**
  - Hardened alloy steel with thickness of at least  $\frac{3}{8}$ " thick and heaviest is best
- Locking Skewers**
  - Very good deterrent
  - Replace all quick release parts
  - Check local bike shops for proper installation
- Cable**
  - Recommended for secondary locking device
  - Good security for movable parts

### PREVENTING BICYCLE THEFT IN GARAGES

Garages and multi-unit apartment buildings with common garage are one of the most vulnerable places for bicycles. Thieves are waiting for the perfect opportunity.

**Secure your bicycle in the garage the same way you would on the street!**

- Secure to an immovable object or an anchor system.
- Never lock your bike near a window or door.
- Always watch your garage door and make sure it closes completely so unwanted visitors do not enter.
- Contact SAFE at 415-553-1984 or [info@sfsafe.org](mailto:info@sfsafe.org) for a residential security survey.

## SAFE BIKE REGISTRY

**YOUR

- Notify **SAFE BIKES** at [info@sfsafe.org](mailto:info@sfsafe.org) or call 415-553-1984.
- Provide pictures and serial numbers for bicycle with the police report and any identifying marks.
- If you don't have a serial number or pictures, track down your serial number from the point of purchase and/or use stock photos and send them to the investigator immediately.
- File an insurance claim.

**INTERNET INVESTIGATIONS**

- Post pictures of stolen bicycle to **Craigslist**, set up a **Google alert**, and use **IFTTT.com**.

Overview

**Note:** The following information is specific to commercial and retail establishments; however, can be applied to any location utilizing video surveillance.

Basic set up and maintenance problems can reduce the effectiveness of many systems.

- Resolution – is it good enough for facial recognition.
- Camera position – are they positioned for clear view of suspect.
- Lighting – is it adequate to capture clear images both day and night.
- Image detail – is the recorder set up for best image detail.
- Maintenance – are you maintaining your system properly so it can do its job when needed?

Set Up and Maintenance

- **Backlighting** – when sun is bright at doorway, images in front appear darker or even black. Use another light source inside to counteract back light.
- **Low Frame Rate** – saves on drive space and gives better image quality, but you may not get an image at all (now you see him; now you don't).
- **Obstructions** – displays and other objects blocking view **should be eliminated.**
- **Focus Problems** – must check system regularly to prevent.

Minimum camera resolution should be **480 horizontal lines.**

Good cameras have **faster lenses** (allows more lighting), larger maximum **aperture** opening (lets more light into the focal point of the camera) and controls image brightness (allows brighter images in dim lighting) – the more lighting, the more depth of field (greater depth of field; the more of the scene is in focus).

**Focal Length** – some cameras zoom in and out while others have a fixed focal length. The type of cameras used depends on what your needs are.

**Transaction Areas** – anything at a transaction point (cash register, toll booth, etc.), the subject's head should fill at least 15% of the total image in the frame, giving the detail you need.

**Lines of Sight** – lines of sight are always critical, make sure there are no obstructions.

**Site Plan** – the right site plan is crucial (retail store blueprint or **diagram**). Key camera spots are at transaction points (cash registers and entry/exit points) – the more cameras, the better.

You want good camera **overlap** (you want multiple chances to capture good images). Extra coverage is also needed for aisles, restrooms and other key points.

**Camera Height** – placement is very important, make sure it is as close to eye-level as possible. Otherwise, you might lose out to a baseball cap.

With a good site plan you can make sure you don't have any blind spots (you can toy around with camera positions, and do a test recording to see that you are getting what you want).

**Interior Lighting** – interior lighting can balance bright light from one direction (back lighting) by adding another light source from a different location (add a bank of lights).

Example: Artificial lighting (**inside store**) for cameras may be good in the morning, but by noon, the sun (through a doorway or window) can blow the entire frame out (add lighting to fill in for afternoon sunlight). Adding more light from a different direction balances lighting, giving better camera clarity (if sunlight is shining through large windows you can tent windows or add screens.

**Exterior Lighting** – if lights are on timers, you must adjust appropriate to seasonal changes (Fall/Winter: gets dark earlier. Spring/Summer: gets dark later).

PARK SMART CAMPAIGN

# Park Smart!

## THE KEYS TO PARKED CAR SAFETY ARE IN YOUR HANDS!

If you love it, don't leave it.

### DON'T TEMPT A CAR THIEF!

Car thieves only need seconds to break into your car. So Park Smart, and especially keep your trunk clear.

Take everything with you.

# Park Smart!

## Safe Habits to Adopt:

**Turn off the ignition**  
Never leave your car running unattended

**Keep your vehicle & tires in good condition**  
to prevent breakdowns—stranding you in a dark or unfamiliar place

**Lock your doors**  
when you get in your car

**See something, say something**  
If you see a motorist in distress, call 9-1-1 versus stopping to help

**Clear your trunk**  
and take your valuables with you every time you leave your car

**If you are being followed,**  
drive to the nearest police or fire station—a populated area is a good default

# DON'T BE A VICTIM OF A BURGLARY!

## Burglary Awareness & Prevention Tips for Construction Sites

### Securing & Preventing

1. Secure all equipment and vehicles at all times.
2. Take effort to reduce the visibility of tools and equipment secured in vehicles or on job sites.
3. Make use of adequate lighting in conjunction with open chain-link fencing on the perimeter to allow for high visibility to the job site.
4. Strongly consider the use of security systems such as alarms and video surveillance. Ensure signage for such is clearly visible.

1899 Waller Street  
San Francisco, CA 94117  
(415) 242-5000

### Precautionary Measures

1. Photograph all tools. Ensure photographs clearly show the associated serial number and/or distinctive markings.
2. Ensure job site keys are marked "Do Not Duplicate" and are controlled at all times.
3. Attempt to park employee vehicles within visual range of the job site.

### Should a Burglary Occur

Immediately contact 911. Be prepared to provide the following information:

- a) Time of incident.
- b) Video (if available).
- c) Items taken (include make, model, description, location taken from, value, photos and serial numbers).
- d) Insurance information.
- e) Owner's information.

Whether you live in a single family home, condo, or a large apartment complex in San Francisco, there are a number of ways you can keep your residence safe and secure. Working together as a community with your neighbors and building management can significantly improve your residential safety.

7 Residential Safety Tips

- 1 **Garage:** When entering or leaving the garage, watch to ensure door shuts completely. Lock stored bikes to a sturdy rack.
- 2 **Car:** Always lock your vehicle when parked in your garage and remove all valuables. Never leave garage door opener in your vehicle when parked outside your home.
- 3 **Spare Key:** Never hide spare keys. If you need to have a spare key available, leave it with a trusted neighbor.

- 4 **Door Buzzer:** When a visitor rings your bell, confirm who it is by intercom before you grant them access. Similarly, never let strangers follow you through the front door.
- 5 **Security Cameras & Alarm Systems:** Cost effective tools for preventing crime and identifying criminals.
- 6 **Light Timers:** Installing timers on the exterior of your residence is an effective and energy efficient way to deter criminal activity.
- 7 **Doors/Windows:** Always keep doors and windows locked.

Door and Window Safety

Doors:

- Should be made of solid wood or metal
- Have a single cylinder deadbolt lock and a 1-inch bolt
- Have a front door viewer or peep hole with a 180-degree range
- Clearly display unit number

Windows:

- Replace if glass is cracked and replace all damaged or missing locks
- Ground level windows should be burglary resistant: consider purchasing windows with reinforcement wire, laminate, or tempered glass
- Polycarbonate plastic or metal grates can be installed over existing ground level windows
- Windows above ground level are not considered secure: if used for ventilation, lock in position and keep open no more than 3 inches

Keep property in good repair. Maintain visibility to your neighbors for increased safety.

## DEFINITION OF SUSPICIOUS ACTIVITY

Suspicious activity is any observed behavior that could indicate a crime-related incident has been committed, or about to be committed. Unusual items or situations: A vehicle is parked in an odd location, a package/luggage is unattended, a window/door is open that is usually closed, or other out-of-the-ordinary situations occur.

Examples of Suspicious Activity:

- An individual peering into vehicles, to try, and locate any valuables left unattended.
- An individual trying door handles to vehicles, and/or residences to gain access to the vehicle and/ or residence.
- An individual checking front doors of residences to locate any unattended packages, or individuals following delivery trucks to see where the truck is dropping off packages.

**CRIME DEFINITIONS***Definitions*

**Robbery** – Robbery is the taking of property from another by using force or by using fear.

**Assault** – An assault is an unlawful attempt, coupled with the present ability, to commit a violent injury on another person.

**Battery - (Misdemeanor battery)** is any willful and unlawful touching of another.

(**Felony battery**) is the use of force or violence upon the person of another that causes serious bodily injury.

\***Assault** is when a person swings their arm and **battery** is when that arm makes contact with another person.

**Aggravated Assault** – Assault upon another person with a deadly weapon or instrument other than a firearm or by any means of force likely to produce great bodily injury.

**Burglary** – The intent upon entry into a property to commit grand theft, petty theft, or any felony.

**Grand Theft** – Grand theft is theft committed when the value of the money, labor, or property taken exceeds \$950.

**Petty Theft** – Theft where the value of the property taken is less than \$950.

**PARK STATION'S VISION & VALUES****Captain Una Bailey**

I absolutely love police work and I love all that we as SFPD can do to help victims, solve and prevent crimes, and I am a firm believer in the power of the community. We, as a department, are only as successful as our partnerships with the community. I learned very early in my career how important community involvement is both in solving and preventing crimes and also in the creation of safe desirable neighborhoods. I look forward to building and maintaining community involvement and relationships over the coming years. I know that when we work together, we will create a district that will be safe and sound for all.

## WHO AND WHEN TO CALL?

**3-1-1:** Please contact 3-1-1 when the issue is a not an emergency, yet requires City services or, if you simply have questions regarding City services. Non-emergency situations include the following examples: damage to public property, public trees that requires pruning, defective streets or sidewalks, homeless-related issues. 3-1-1 was developed to help the community inform the appropriate City agency regarding a service request.

**SF 3-1-1 APP** is available to use on your mobile device. Download the APP and its easy to use for many Non-emergency.

**Non- Emergency San Francisco Dispatch Line:** Please call the non- emergency dispatch line (**415-553-0123**) when the scenario does not need immediate response from the San Francisco Police Department. For example, if there is a loud party, a group of loud juveniles loitering in front of your residence, noise complaints, doubled parked vehicles, suspicious activities, or a homeless/nuisance related issue. **The non-emergency line is for situations that require the police, but do not require an immediate police response.**

**9-1-1, please call 9-1-1 immediately if there is a police, fire, medical, or any other emergency.** The purpose of San Francisco's 9-1-1 Emergency Telephone System is to provide the community an immediate response of police, fire, or medical personnel for emergency occurrences. To accomplish this, it is imperative that the calls received on the 9-1-1 line be restricted to those situations that require immediate dispatching of police, paramedic, or fire department personnel. For example, crimes or fires that are in-progress, or medical emergencies.

The San Francisco Police Department district station telephone numbers and emails are not monitored. Questions will be answered in the order we receive them. Station emails are not for making police reports nor for reporting a crime. If you need to make a police report, you can call 415-553-0123 or go to your district police station. **If you have an emergency, please call 9-1-1.**
