Hello all and Happy Halloween,

Be safe out there and check out our Halloween safety tips on page three.

At our Station we had some exciting news this week. I am very proud to announce four of our officers were promoted to the rank of sergeant. The officers are Officer Carol Margetts, Officer Jeremy Cummings, Officer Alaric Wu and Officer Ryan Crockett. All of them, play a vital role at the station and even though we will miss them I know I and everyone at the station wishes them every success in their new rank.

I want to talk today about the importance of getting to know your neighbors especially as we see what is happening in the North Bay and also down south. I know many of us in this area have been inconvenienced by power outages but our hearts have to go out to those people whose homes have been destroyed by fire. So many people have been evacuated and are on standby wondering if their home made it and when will they be able to return to the comfort of their own home.

I hear time and time again about the wonderful neighbors taking care of one another. People ensuring that as they evacuate they are taking care of their neighbors, especially our most vulnerable the elderly. These neighbors know the people who need help and took the steps necessary to safe guard these individuals. To my knowledge there has been no loss of life which is really the most important thing and I am convinced that this is in a big part thanks to community engagement.

CAPTAIN'S MESSAGE CONTINUED

I would be remiss not to mention all the wonderful, brave first responders especially the firefighters who put themselves in fires way to keep everyone safe and of course all the law enforcement agencies who lend a helping hand including SFPD who have deployed many officers to the North Bay to assist in the many ways necessary to keep people and their property safe.

I think these events have to serve as a reminder to be prepared to evacuate by having your go bag on hand but also to take the time to get to know your neighbors. Last Sunday I had that very opportunity to get to meet and know the people on the unit block of Divisadero at their Buena Vista Park Block Party. It was an excellent opportunity for me to meet the community members but in addition it was great to see all the community members assemble with great food, drinks and activities to keep all entertained and of course presenting the opportunity for neighbors to get to know one another.

In addition to meeting the community members everyone had the opportunity to meet Mayor London Breed, Supervisor Mandelman, Senator Weiner and many of the candidates running for the District Attorney's office.

I want to finish by saying great job in the organization of this event and even though I have had the absolute pleasure to attend many community meetings and gatherings I would love to see more of these block parties. Mayor London Breed who believes strongly in community engagement mentioned that she has removed much of the red tape in an effort to make these Block Parties a lot easier to orchestrate.

Be safe

GO BAG INFORMATION

Here's how to prepare a evacuation "go bag" that you can quickly grab in case you ever need to evacuate.

Choose a bag. Each member of the family should have his or her own. Start with a backpack or a nylon camper's laundry bag with a drawstring.

Take photos of all the rooms in your home, along with all your valuables. Store these photos on a cloud server, and back them up on a flash drive.

Scan all your important documents, and save them on a flash drive. You could also save them onto a cloud server if you have an encryption service you trust.

These documents include:

- Driver's license
- The deed to your house
- Your will and/or trust
- Proof of insurance
- Medical records
- Passports
- Social security cards
- Birth certificates
- A list of personal contacts with their addresses and phone numbers
- Your kids' immunization records

Your pet's paperwork for vaccinations and medical history Include the flash drives of your photos and important documents in your bag. **Add essential supplies to help you get by for a few days.** This includes water (one gallon per person per day), non-perishable food, a first-aid kit, a flashlight, batteries, clothes, diapers and pet supplies. Ready.gov has a full [emergency kit checklist](#) that you can download. **Create an evacuation to-do list.** Note the items you will want to pack during an emergency: your "go bag," your pets, and a list of valuables (jewelry, paintings, photos) you can't live without. Also list your action items, such as turning off utilities and locking up your house. When you need to evacuate, break out the evacuation to-do list, check off each item, and get the hell out.

You can get this information and more by doing an internet search, the information printed was one such search.

SOME OF PARK STATION'S ARRESTS FOR THE WEEK**Assault, Aggravated, w/ Other Weapon; Battery, 10/22/19, Area of Noe - 1751 Hrs.**

On 10/22/19 around 1751 hours, Park Station officers responded to the 100 block of Noe St regarding a physical fight. Upon arrival, they were able to locate both parties involved and detain them without further incident. During their preliminary investigation, the officers learned that the subject had struck the other party in the nose with a metal water bottle thus breaking it. The subject was placed under arrest at the scene and subsequently booked at CJ #1 for the above listed charges. The party with the broken nose was cited for battery and released at the scene.

Driving, License Suspended or Revoked / Area of John F Kennedy - 10/22/19, 1119 Hrs.

Officers were in a marked patrol vehicle when they witnessed a vehicle drive through an intersection without stopping. Officers conducted a traffic stop and computer query on the driver revealed that his driver's license was suspended. The subject had no prior convictions. Officers issued the subject a citation and his vehicle was legally parked at the scene.

Warrant Arrest, Local SF Warrant - 10/24/19, Area of States, 0902 Hrs.

On 10/24/19 Officers responded to the area of States Street regarding a male sleeping on the sidewalk. On arrival they observed a male sleeping on the sidewalk in violation of 168(b) MPC. A warrant check revealed that this male had three felony warrants for threatening a police officer, resisting arrest and battery on a police officer. The officer placed the subject under arrest and transported him to County Jail.

Trespassing - 10/24/19, Area of Haight, 0730 Hrs.

On 10/24/19 Officers responded to the area of Haight Street regarding a male sleeping in the alleyway between two houses. Upon arrival, the Officers observed the two males rolling around on the sidewalk. The officers separated the two males and started an investigation. It was determined that one of the males, the victim whom was rolling around on the sidewalk, was a resident that lived on Haight Street. The other male, the suspect was trespassing in the alleyway between the two houses. The victim signed a Citizen's Arrest Form and the suspect was cited for trespassing and released from the scene.

Warrant arrest, Enroute to Outside Jurisdiction, Narcotics Paraphernalia, Possession, False Identification to a Peace Officer - 10/24/19, Area of Market, 1756 Hrs.

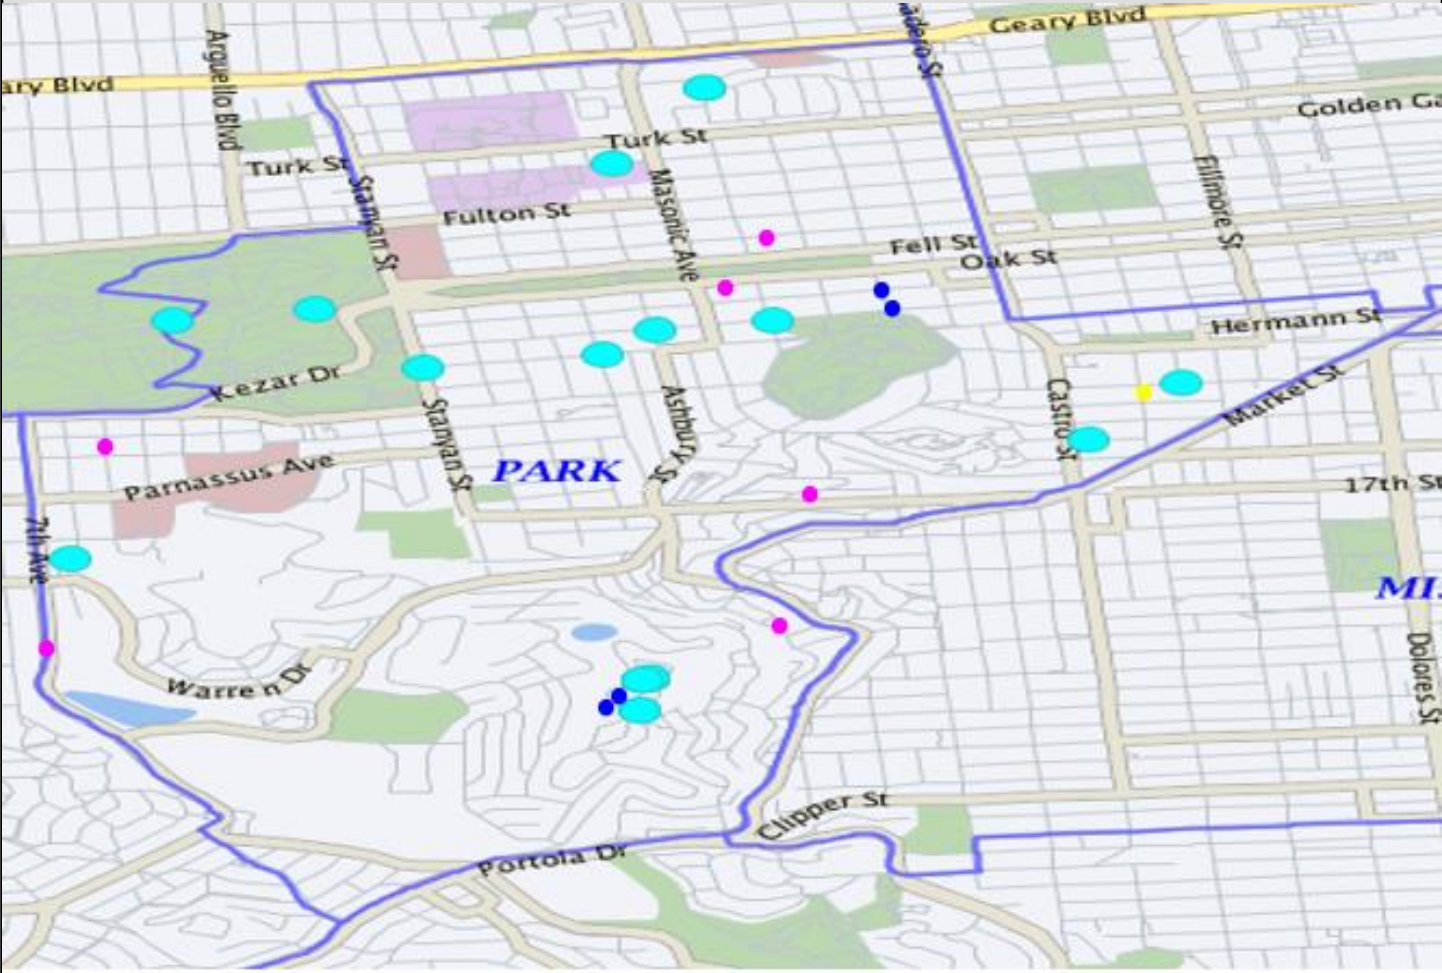

On 10/24/19 Officers on patrol observed male sitting on the sidewalk in violation of 168(b) MPC. The officer contacted the subject and asked for his identification. The subject gave the officers a false name. With further investigation the subject's true identity was determined and a computer check revealed that the subject had a burglary warrant for \$10,000 from Marin County. During an arrest search a Methamphetamine pipe was located on the subject. The subject was arrested for the above listed charges and transported to County Jail.

Warrant arrest, Local SF Warrant - Area of Haight, 1950 Hrs.

While on patrol on Haight Street, Officers observed a suspect drinking a 40oz bottle of beer in public, in violation of 21(a) MPC. The officers contacted the suspect and a computer check revealed that he had a \$7,500 warrant for his arrest for malicious mischief. The suspect was arrested and transported to Park Station where he was booked for the above charges.

DISTRACTED DRIVING

Distracted Driving

Distracted driving is anything that takes your eyes or mind off the road. In the smartphone age, distracted driving is the most dangerous when drivers are using their cell phone behind the wheel.

Whether it is talking, emailing, texting, plugging in directions, using an app or scrolling through social media feeds, using a cell phone is not only dangerous, but also illegal.

In 2017, 3,166 people were killed in distracted driving related crashes across the country, or nearly 10 percent of all traffic deaths.

Using a phone to dial, talk or text triples the risk of a driver getting into a crash. Texting is the most alarming distraction. Sending or reading a text takes your eyes off the road for an average of 5 seconds. At 55 mph, that's like driving the length of a football field with your eyes closed.

Other serious driver distractions such as eating, grooming, reaching for objects on the floor, changing clothes or talking with passengers are just as dangerous. The safest thing drivers can do is put down the phone, focus on the road and just drive.

Distracted Driving Prevention

- ✓ Never Text and Drive
- ✓ Silence your phone before you drive
- ✓ Pull over to safe parking spot to make a call
- ✓ Don't text or call someone you know is driving

Cell Phone Law

-  Holding a phone while driving is illegal. Any electronic device must be used in a hands-free manner, such as speaker or voice commands. The law applies when at a stop sign or signal.
-  To use a phone while driving, it must be mounted on the dashboard, windshield (seven-inch square in lower right corner or five-inch square in lower left corner), or center console.
-  When the phone is mounted, drivers can swipe or tap the screen once to activate or deactivate a feature. It is illegal to swipe multiple times, enter information or text.
-  A first offense ticket is \$162, with additional offenses costing even more.
-  You may use your phone while holding it for true emergencies, like calling 911.

JUST DRIVE

Distracted Driving

It's easy to feel like driving isn't enough when there's so much more to do. It's normal to feel the urge to grab the phone. But we must stay focused on the road. Not only is holding your phone while driving illegal in the State of California, distracted driving is now the number one cause of roadway crashes. Join us in being part of the solution. Grab the wheel with both hands, enjoy the drive and focus on each other. Here are some ways you can prevent driving distracted:

- > Silence your phone before you get behind the wheel and keep it mounted in a legally approved location.
- > Never text and drive or use apps or social media while driving.
- > Do not eat, drink or program your GPS/MP3 player or other devices while driving.
- > If a phone call is necessary or you need to reroute your map, pull over to use those devices.
- > If something falls to the floor, pull over to a safe parking spot before trying to reach it.

ANTI-BIKE THEFT TIPS

LOCK

sfsafe.org/safe-bikes

SAFE BIKES and the SFPD recommend the Sheldon Brown Locking Method.

No locking method is 100% foolproof, but this method is highly effective.

GUIDE FOR LOCKING YOUR BIKE:

- Use the smallest U-lock that works for your bike to minimize the amount of space available for a thief to insert a jack or levers.
- Use a hardened steel U-Lock to secure back wheel inside the rear triangle of the bicycle frame.
- Check to make sure U-lock is secured to an immovable metal object.
- Secure front wheel with cable or second U-lock. Loop cable around the down tube of the bicycle or secure second U-lock to front wheel and down tube.
- Replace quick release skewers and nutted wheels with keyed locking skewers and nuts to ensure wheels and saddles are locked to the bike frame at all times.
- Check with local bike shop for proper installation of locking skewers and advice.

SAFE BIKE REGISTRY

YOU JUST BOUGHT A NEW BICYCLE— NOW WHAT?

FOLLOW THESE STEPS:

- Register** and upload receipt and photos of your bicycle at sfsafe.org/safe-bikes.
- Buy a hardened steel U-lock and a secondary lock** such as a chain or cable (See locking tools list).
- Replace quick release skewers and nutted wheels with uniquely keyed locking skewers and nuts**, which keep wheels and saddles locked to the bike frame at all times.
- Lock** your bicycle in your garage the same way you would on the street.
- Take an urban bicycling workshop** with the San Francisco Bicycle Coalition to learn safe riding practices. Go to sfbike.org for more information.
- Speak with your local bicycle shop** for more help and advice.

TOOLS TO LOCK YOUR BICYCLE

There are many different types of locks for bicycles and many incorrect ways of using them. No locking method is 100% effective.

For best security use a hardened steel U-lock, chain and locking skewers.

- U-lock**
 - Very good deterrent
 - Use the smallest U-lock that works for your bike to minimize the amount of space available for thief to insert a jack or levers
- Chain**
 - Hardened alloy steel with thickness of at least $\frac{3}{8}$ " thick and heaviest is best
- Locking Skewers**
 - Very good deterrent
 - Replace all quick release parts
 - Check local bike shops for proper installation
- Cable**
 - Recommended for secondary locking device
 - Good security for movable parts

PREVENTING BICYCLE THEFT IN GARAGES

Garages and multi-unit apartment buildings with common garage are one of the most vulnerable places for bicycles. Thieves are waiting for the perfect opportunity.

Secure your bicycle in the garage the same way you would on the street!

- Secure to an immovable object or an anchor system.
- Never lock your bike near a window or door.
- Always watch your garage door and make sure it closes completely so unwanted visitors do not enter.
- Contact SAFE at 415-553-1984 or info@sfsafe.org for a residential security survey.

Overview

Note: The following information is specific to commercial and retail establishments; however, can be applied to any location utilizing video surveillance.

Basic set up and maintenance problems can reduce the effectiveness of many systems.

- Resolution – is it good enough for facial recognition.
- Camera position – are they positioned for clear view of suspect.
- Lighting – is it adequate to capture clear images both day and night.
- Image detail – is the recorder set up for best image detail.
- Maintenance – are you maintaining your system properly so it can do its job when needed?

Set Up and Maintenance

- **Backlighting** – when sun is bright at doorway, images in front appear darker or even black. Use another light source inside to counteract back light.
- **Low Frame Rate** – saves on drive space and gives better image quality, but you may not get an image at all (now you see him; now you don't).
- **Obstructions** – displays and other objects blocking view **should be eliminated.**
- **Focus Problems** – must check system regularly to prevent.

Minimum camera resolution should be **480 horizontal lines.**

Good cameras have **faster lenses** (allows more lighting), larger maximum **aperture** opening (lets more light into the focal point of the camera) and controls image brightness (allows brighter images in dim lighting) – the more lighting, the more depth of field (greater depth of field; the more of the scene is in focus).

Focal Length – some cameras zoom in and out while others have a fixed focal length. The type of cameras used depends on what your needs are.

Transaction Areas – anything at a transaction point (cash register, toll booth, etc.), the subject's head should fill at least 15% of the total image in the frame, giving the detail you need.

Lines of Sight – lines of sight are always critical, make sure there are no obstructions.

Site Plan – the right site plan is crucial (retail store blueprint or **diagram**). Key camera spots are at transaction points (cash registers and entry/exit points) – the more cameras, the better.

You want good camera **overlap** (you want multiple chances to capture good images). Extra coverage is also needed for aisles, restrooms and other key points.

Camera Height – placement is very important, make sure it is as close to eye-level as possible. Otherwise, you might lose out to a baseball cap.

With a good site plan you can make sure you don't have any blind spots (you can toy around with camera positions, and do a test recording to see that you are getting what you want).

Interior Lighting – interior lighting can balance bright light from one direction (back lighting) by adding another light source from a different location (add a bank of lights).

Example: Artificial lighting (**inside store**) for cameras may be good in the morning, but by noon, the sun (through a doorway or window) can blow the entire frame out (add lighting to fill in for afternoon sunlight). Adding more light from a different direction balances lighting, giving better camera clarity (if sunlight is shining through large windows you can tent windows or add screens.

Exterior Lighting – if lights are on timers, you must adjust appropriate to seasonal changes (Fall/Winter: gets dark earlier. Spring/Summer: gets dark later).

PARK SMART CAMPAIGN

Park Smart!

THE KEYS TO PARKED CAR SAFETY ARE IN YOUR HANDS!

If you love it, don't leave it.

DON'T TEMPT A CAR THIEF!

Car thieves only need seconds to break into your car. So Park Smart, and especially keep your trunk clear.

Take everything with you.

Park Smart!

Safe Habits to Adopt:

Turn off the ignition
Never leave your car running unattended

Keep your vehicle & tires in good condition
to prevent breakdowns—stranding you in a dark or unfamiliar place

Lock your doors
when you get in your car

See something, say something
If you see a motorist in distress, call 9-1-1 versus stopping to help

Clear your trunk
and take your valuables with you every time you leave your car

If you are being followed,
drive to the nearest police or fire station—a populated area is a good default

DON'T BE A VICTIM OF A BURGLARY!

Burglary Awareness & Prevention Tips for Construction Sites

Securing & Preventing

1. Secure all equipment and vehicles at all times.
2. Take effort to reduce the visibility of tools and equipment secured in vehicles or on job sites.
3. Make use of adequate lighting in conjunction with open chain-link fencing on the perimeter to allow for high visibility to the job site.
4. Strongly consider the use of security systems such as alarms and video surveillance. Ensure signage for such is clearly visible.

1899 Waller Street
San Francisco, CA 94117
(415) 242-5000

Precautionary Measures

1. Photograph all tools. Ensure photographs clearly show the associated serial number and/or distinctive markings.
2. Ensure job site keys are marked "Do Not Duplicate" and are controlled at all times.
3. Attempt to park employee vehicles within visual range of the job site.

Should a Burglary Occur

Immediately contact 911. Be prepared to provide the following information:

- a) Time of incident.
- b) Video (if available).
- c) Items taken (include make, model, description, location taken from, value, photos and serial numbers).
- d) Insurance information.
- e) Owner's information.

Whether you live in a single family home, condo, or a large apartment complex in San Francisco, there are a number of ways you can keep your residence safe and secure. Working together as a community with your neighbors and building management can significantly improve your residential safety.

7 Residential Safety Tips

- 1 **Garage:** When entering or leaving the garage, watch to ensure door shuts completely. Lock stored bikes to a sturdy rack.
- 2 **Car:** Always lock your vehicle when parked in your garage and remove all valuables. Never leave garage door opener in your vehicle when parked outside your home.
- 3 **Spare Key:** Never hide spare keys. If you need to have a spare key available, leave it with a trusted neighbor.

- 4 **Door Buzzer:** When a visitor rings your bell, confirm who it is by intercom before you grant them access. Similarly, never let strangers follow you through the front door.
- 5 **Security Cameras & Alarm Systems:** Cost effective tools for preventing crime and identifying criminals.
- 6 **Light Timers:** Installing timers on the exterior of your residence is an effective and energy efficient way to deter criminal activity.
- 7 **Doors/Windows:** Always keep doors and windows locked.

Door and Window Safety

Doors:

- Should be made of solid wood or metal
- Have a single cylinder deadbolt lock and a 1-inch bolt
- Have a front door viewer or peep hole with a 180-degree range
- Clearly display unit number

Windows:

- Replace if glass is cracked and replace all damaged or missing locks
- Ground level windows should be burglary resistant: consider purchasing windows with reinforcement wire, laminate, or tempered glass
- Polycarbonate plastic or metal grates can be installed over existing ground level windows
- Windows above ground level are not considered secure: if used for ventilation, lock in position and keep open no more than 3 inches

Keep property in good repair. Maintain visibility to your neighbors for increased safety.

PARK STATION'S VISION & VALUES**Captain Una Bailey**

I absolutely love police work and I love all that we as SFPD can do to help victims, solve and prevent crimes, and I am a firm believer in the power of the community. We, as a department, are only as successful as our partnerships with the community. I learned very early in my career how important community involvement is both in solving and preventing crimes and also in the creation of safe desirable neighborhoods. I look forward to building and maintaining community involvement and relationships over the coming years. I know that when we work together, we will create a district that will be safe and sound for all.

WHO AND WHEN TO CALL?

3-1-1: Please contact 3-1-1 when the issue is a not an emergency, yet requires City services or, if you simply have questions regarding City services. Non-emergency situations include the following examples: damage to public property, public trees that requires pruning, defective streets or sidewalks, homeless-related issues. 3-1-1 was developed to help the community inform the appropriate City agency regarding a service request.

SF 3-1-1 APP is available to use on your mobile device. Download the APP and its easy to use for many Non-emergency.

Non- Emergency San Francisco Dispatch Line: Please call the non- emergency dispatch line (**415-553-0123**) when the scenario does not need immediate response from the San Francisco Police Department. For example, if there is a loud party, a group of loud juveniles loitering in front of your residence, noise complaints, doubled parked vehicles, suspicious activities, or a homeless/nuisance related issue. **The non-emergency line is for situations that require the police, but do not require an immediate police response.**

9-1-1, please call 9-1-1 immediately if there is a police, fire, medical, or any other emergency. The purpose of San Francisco's 9-1-1 Emergency Telephone System is to provide the community an immediate response of police, fire, or medical personnel for emergency occurrences. To accomplish this, it is imperative that the calls received on the 9-1-1 line be restricted to those situations that require immediate dispatching of police, paramedic, or fire department personnel. For example, crimes or fires that are in-progress, or medical emergencies.

The San Francisco Police Department district station telephone numbers and emails are not monitored. Questions will be answered in the order we receive them. Station emails are not for making police reports nor for reporting a crime. If you need to make a police report, you can call 415-553-0123 or go to your district police station. **If you have an emergency, please call 9-1-1.**
