NEWS RELEASE

Joint Statement of the Seven Bay Area Health Officers on Upcoming Extension and Revisions to the Current Shelter-in-Place Orders

San Francisco, CA – Later this week, the Public Health Officers of the Counties of Alameda, Contra Costa, Marin, San Francisco, San Mateo, and Santa Clara as well as the City of Berkeley will issue revised shelter-in-place orders that largely keep the current restrictions in place and extend them through May. The new order will include limited easing of specific restrictions for a small number of lower-risk activities.

The shelter-in-place orders in effect across the seven jurisdictions are set to expire on May 3, 2020. Thanks to the collective effort and sacrifice of the 7 million residents across our jurisdictions, we have made substantial progress in slowing the spread of the novel coronavirus, ensuring our local hospitals are not overwhelmed with COVID-19 cases, and saving lives. At this stage of the pandemic, however, it is critical that our collective efforts continue so that we do not lose the progress we have achieved together. Hospitalizations have leveled, but more work is needed to safely re-open our communities. Prematurely lifting restrictions could easily lead to a large surge in cases.

The Health Officers will also release a set of broad indicators that will be used to track progress in preparedness and response to COVID-19, in alignment with the framework being used by the State of California. Future easing of restrictions requires that each jurisdiction and various sectors continue to rapidly build critical infrastructure and systems to respond to and control the spread of coronavirus infections and to ensure the health care system's ability to meet demand.

This global pandemic of COVID-19 is still in its early stages. The virus spreads easily, testing capacity is limited and expanding slowly, and vaccine development is just beginning. We expect to be responding to COVID-19 in our communities for a long time. As effective as our efforts have been, if we move too fast to ease restrictions, the potential of exponential spread could have grave impacts to health and wellness of our residents as well as the economy.

The Health Officers of these seven jurisdictions have been working closely together in leading a unified, regional approach, to protect the health and safety of our residents. Details regarding this next phase will be shared later in the week, along with the updated order.

Definition of Community Policing

Community policing, or community-oriented policing, is a strategy of policing that focuses on the police building ties and working closely with members of the communities.

- Homeless Outreach and Outreach to Drug Users: Southern Station officers coordinate with city agencies to provide outreach and assistance to rehabilitate those who are dependent on illegal drugs and outreach to homeless individuals to connect them with resources and support.
- Foot Patrols: Southern Station has beat officers assigned to the Mission Street corridor from 4th St to 9th St and on 6th St between Mission St and Howard St.
- Monthly Police Community Relations Meetings: Community Meetings are held continuously. Officers also attend meetings with merchants groups, business groups, development authorities and others. Concerns are voiced and addressed through problem solving.
- Email Updates: Southern Station sends out newsletter updates to residents in the district that alerts residents of crime trends, upcoming community events, crime prevention tips, and information on how to contact officers at the district station.

Definition of Suspicious Activity

Suspicious activity is any observed behavior that could indicate a crime-related incident has been committed, or about to be committed. Unusual items or situations: A vehicle is parked in an odd location, a package/luggage is unattended, a window/door is open that is usually closed, or other out-of-the-ordinary situations occur.

Examples of Suspicious Activity:

- ◆ An individual peering into vehicles, to try, and locate any valuables left unattended.
- ◆ An individual trying door handles to vehicles, and/or residences to gain access to the vehicle and/ or residence.
- ◆ An individual checking front doors of residences to locate any unattended packages, or individuals following delivery trucks to see where the truck is dropping off packages.

**See something.
Say something.**
