Captain Chris Woon's message

Fri June 5, 2020

Mayor London N. Breed, in consultation with the City's public safety officials, announced that she would implement a citywide curfew beginning Sunday, May 31, 2020 at 8:00 p.m. The curfew requires people within the City of San Francisco to stay indoors from 8:00 p.m. until 5:00 a.m. daily. This Order was rescinded on Thursday, June 4, 2020.

Exemptions to the curfew included:

- Peace officers, firefighters, other City and County employees engaged in authorized emergency operations, members of the National Guard, or any other responding personnel deployed to the City and County;
 - Individuals who can establish to the satisfaction of a peace officer that they are in such place for the sole purpose of traveling to a home or workplace or to obtain medical assistance;
 - Authorized representatives of any news service, newspaper, radio or television station or network, or other media organization;
- People experiencing homelessness.

The City and County of San Francisco Department of Emergency Management used numerous alerting systems to ensure the public knew about the curfew and to whom it applied. These alerting systems included the Wireless Emergency Alert System, which sent a text message to all cell phones connected to a cell tower in San Francisco; the Emergency Alert System, which aired the emergency message on TV and radio; and AlertSF, the City's standard emergency alert system that sent a text message or email to registered users. To register for AlertSF text your zip code to 888-777.

San Francisco Planned Reopening Timeline

On May 28, Mayor London N. Breed announced a plan for reopening San Francisco that will allow certain businesses and activities to resume with modifications in phases over the coming weeks and months. As long as San Francisco continues to make progress slowing the spread of COVID-19, meets key health indicators, and state guidance continues to allow more activities, San Francisco restaurants will be able to offer outdoor dining, retail businesses will be able to allow customers to shop inside with modifications, and additional outdoor activities can resume on June 15th. The City plans to allow additional activities and businesses to resume in July and August.

The list below does not include all the businesses and activities that the City has included in the plan for reopening. San Francisco will only allow reopening of businesses and activities that are permitted under the State's guidelines. For full information about the City's plan to allow additional activities and business to reopen in phases, go to [SF.gov/reopening](https://sf.gov/reopening).

* The City announced Shared Spaces, a new program for more flexible use of sidewalks, streets, and other public spaces for neighborhood businesses. Businesses and local merchant associations will be able to apply for a permit to share sidewalk or curbside space for table dining or retail activity. In order to take advantage of this, businesses must self-manage safety and accessibility requirements like ensuring a clear path for pedestrians.

Special Attention:

In the recent past weeks there has been a rash of garage burglaries that have taken place here in the Ingleside District, most notably in the Bernal Heights and Noe Valley area. In the majority of the incidents garages with a window are broken out. The burglar then reaches through the broken window, pulls on the emergency cord and simply lifts the garage door open to gain entry.

If you don't have them already, it is recommended to install motion light sensors, surveillance cameras, and reinforcing the glass on the garage door with a vinyl adhesive. Also installing/placing an interior manual garage door lock to secure the garage at night. In addition, consider tying the emergency release cord into a small ball so that it will be more difficult to access. These are only a few suggestions. SFPD also recommends contacting SFSAFE at 415-553-1984 or WWW.SFSAFE.ORG to assist with other crime prevention measures. SFSAFE even has a service to come to your home for a free home security assessment.

Captain Woon has directed extra patrols in the neighborhoods, which includes officers in plainclothes conducting surveillance. Furthermore, the burglary Unit will continue to follow up with the burglaries in an effort to apprehend the subject(s).

COMING SOON EXCELSIOR SLOW STREET!

SFMTA SLOW STREET PROGRAM COVID-19 RESPONSE

Excelsior Slow Street between London and Prague streets

What are Slow Streets?

The SFMTA's new **Slow Streets Program** is designed to limit through traffic on certain residential streets and allow them to be used more as a shared space for foot and bicycle traffic. There will be no changes to parking or driveway access.

Simple tools such as temporary signs and zones will be used to divert traffic and slow down overall speeds. Motor vehicles still have the right-of-way, but these simple strategies are designed to improve safety for people who are walking, jogging, or bicycling in the street. Access to driveways and deliveries will be maintained for residents and businesses.

Why Slow Streets?

With Muni service temporarily reduced during the COVID-19 health crisis, many San Franciscans need to walk and take other modes of transportation for essential trips. However, sometimes it is difficult to maintain 6 feet of social distance on many sidewalks, park paths, and bikeways. Because of this, many pedestrians are choosing to walk in the street, exposing themselves to swiftly moving vehicle traffic.

For more information, to leave feedback, or recommend other locations for the Slow Street Program, please visit: [SFMTA.com/slowstreets](https://sfmta.com/slowstreets).

What you need to know about coronavirus disease 2019 (COVID-19)

What is coronavirus disease 2019 (COVID-19)?

Coronavirus disease 2019 (COVID-19) is a respiratory illness that can spread from person to person. The virus that causes COVID-19 is a novel coronavirus that was first identified during an investigation into an outbreak in Wuhan, China.

Can people in the U.S. get COVID-19?

COVID-19 is spreading from person to person in China, and limited spread among close contacts has been detected in some countries outside China, including the United States. At this time, however, this virus is NOT currently spreading in communities in the United States. Right now, the greatest risk of infection is for people in China or people who have traveled to China. Risk of infection is dependent on exposure. Close contacts of people who are infected are at greater risk of exposure, for example health care workers and close contacts of people who are infected with the virus that causes COVID-19. CDC continues to closely monitor the situation.

Have there been cases of COVID-19 in the U.S.?

Yes. The first case of COVID-19 in the United States was reported on January 21, 2020. The current count of cases of COVID-19 in the United States is available on CDC's webpage at <https://www.cdc.gov/coronavirus/2019-ncov/cases-in-us.html>.

How does COVID-19 spread?

The virus that causes COVID-19 probably emerged from an animal source, but now it seems to be spreading from person to person. It's important to note that person-to-person spread can happen on a continuum. Some diseases are highly contagious (like measles), while other diseases are less so. At this time, it's unclear how easily or sustainably the virus that causes COVID-19 is spreading between people. Learn what is known about the spread of newly emerged coronaviruses at <https://www.cdc.gov/coronavirus/2019-ncov/about/transmission.html>.

What are the symptoms of COVID-19?

Patients with COVID-19 have had mild to severe respiratory illness with symptoms of

- fever
- cough
- shortness of breath

What are severe complications from this virus?

Many patients have pneumonia in both lungs.

How can I help protect myself?

The best way to prevent infection is to avoid being exposed to the virus that causes COVID-19.

There are simple everyday preventive actions to help prevent the spread of respiratory viruses. These include

- Avoid close contact with people who are sick.
- Avoid touching your eyes, nose, and mouth with unwashed hands.
- Wash your hands often with soap and water for at least 20 seconds. Use an alcohol-based hand sanitizer that contains at least 60% alcohol if soap and water are not available.

If you are sick, to keep from spreading respiratory illness to others, you should

- Stay home when you are sick.
- Cover your cough or sneeze with a tissue, then throw the tissue in the trash.
- Clean and disinfect frequently touched objects and surfaces.

What should I do if I recently traveled to China and got sick?

If you were in China within the past 14 days and feel sick with fever, cough, or difficulty breathing, you should seek medical care. Call the office of your health care provider before you go, and tell them about your travel and your symptoms. They will give you instructions on how to get care without exposing other people to your illness. While sick, avoid contact with people, don't go out and delay any travel to reduce the possibility of spreading illness to others.

Is there a vaccine?

There is currently no vaccine to protect against COVID-19. The best way to prevent infection is to avoid being exposed to the virus that causes COVID-19.

Is there a treatment?

There is no specific antiviral treatment for COVID-19. People with COVID-19 can seek medical care to help relieve symptoms.

Worried about novel coronavirus (COVID-19)? 擔心感染新型冠狀病毒？ Nagaaalala ka ba tungkol sa coronavirus? ¿Está preocupado por el nuevo coronavirus?

Follow these common sense health practices now to protect against seasonal cold and flu including novel coronavirus if it comes to our community.

應按照衛生常識的做法預防季節性流感和感冒，包括新型冠狀病毒，若出現在社區內傳播的情況。

Gawin ang mga sumusunod na mga pangkaraniwang pamamaraan sa pag-alaga ng kalusugan para labanan ang seasonal na lagnat at trangkaso kasama ang novel coronavirus kung sakaling dumating ito sa inyong komunidad.

Sigua estas sensatas prácticas sanitarias hoy mismo para protegerse durante la temporada del catarro, la gripe e incluso el nuevo coronavirus, si es que llega a nuestra comunidad.

1

Wash your hands often with soap and water, for at least 20 seconds.

勤用肥皂和清水洗手，並搓手至少 20 秒。

Dalasan ang paghugas ng inyong mga kamay ma hindi baba sa 20 segundo gamit ang sabon at tubig.

Lávase las manos frecuentemente con agua y jabón por lo menos unos 20 segundos.

2

Cover your cough and sneeze. If you are sick, face masks can prevent spread of germs to others, but are not recommended to prevent getting sick. Face masks are NOT a substitute for handwashing.

咳嗽或打噴嚏時應掩蓋口鼻。生病時佩戴口罩可防止將病菌傳播他人，並不建議使用口罩預防疾病。口罩無法取代洗手。

Takpan ang inyong pagubo at pagbahing. Kung ikaw ay may sakit, makakatulong ang paggamit ng face mask sa pagiwas ng pagkalat ng mikrobyo, ngunit hindi ito inirerekomenda para maiwasan ang sakit. Ang pagsuot ng face ask ay hindi kapalit ng paghugas ng kamay.

Cúbrase la tos y los estornudos con el brazo. Si está enfermo, las máscaras pueden evitar la propagación a los demás pero no se recomiendan para evitar enfermarse. Las máscaras no sustituyen lavarse las manos.

3

Stay home when sick. If you or someone you live with has returned from China in the past 14 days, and are now sick, call your doctor and give your symptoms and travel history.

身感不適就留在家。若你或與你同住一屋的人士在 14 日內從中國大陸返回美國後身感不適，請致電及告知醫生你的症狀及重遊記錄。

Manatili sa inyong tirahan kung kayo ay may sakit. Kung kayo o mga kasambahay ninyo ay bumiyahé mula China noong nakaraang 14 araw, at sila ngayon ay may sakit, tawagan ang inyong doktor at ipaalam ang mga sintomas at kasaysayan ng paglalakbay.

Si está enfermo, quédese en casa. Si usted o alguien más regresaron de la China en los últimos 14 días y se están enfermos, llame a su médico y relate sus síntomas e historial de viajes.

4

Get a flu shot! It will help you avoid flu symptoms which are similar to novel coronavirus symptoms.

接種流感疫苗！預防你出現類似新型冠狀病毒症狀的流感病徵。

Magpa-flu shot kayo! Makakatulong ito sa pagiwas sa sintomas ng trangkaso na kahawig din ng sintomas ng novel coronavirus.

¡Vacúnese contra la gripe! La vacuna le puede ayudar a evitar síntomas muy similares a los del coronavirus.

San Francisco Police Arrest Robbery Suspect

On Friday, May 15, 2020, San Francisco Police officers from Taraval Police Station responded to a robbery that occurred at approximately 3:20 PM on the 1500 block of 23rd Avenue. The 75 year-old victim was walking on the sidewalk when a male suspect approached and attempted to place a necklace onto the victim. As the suspect placed jewelry on the victim, he grabbed the victim's necklace and removed it from the victim's neck. The suspect ran to a nearby vehicle that was driven by a second suspect and fled the scene. Investigators were able to locate surveillance video that captured the images of the robbery and the suspect's vehicle.

On Monday, May 18, 2020 San Francisco Police officers took a report of a robbery that occurred at approximately 4:30 PM on the 1800 block of 29th Avenue. The 94 year-old victim was walking on the sidewalk when a vehicle approached the victim. A male and female exited the car. The male and female suspects restrained the victim which prevented her from moving. The suspects removed the victim's necklace and bracelet. The suspects ran back to their vehicle and fled southbound on 29th Avenue. The victim remained at the scene and the suspects returned a few minutes later. The female suspect approached the victim and attempted to give her items of jewelry but returned to the car and fled the scene.

Taraval Police Station officers assigned to the Taraval Neighborhood Team (TNT) lead the investigation and determined that these two incidents involved the same male suspect. TNT officers served search warrants that yielded information regarding the suspect and collaborated with SFPD's Financial Crimes Unit to locate the suspect.

On Wednesday, May 20, 2020, TNT officers notified the California Highway Patrol (CHP) that the vehicle was in Southern California. CHP officers located the vehicle and conducted a traffic stop on the Stockdale Highway near Bakersfield. There were two occupants in the vehicle. TNT investigators responded to Bakersfield with an additional search warrant. Upon arrival TNT officers met with CHP officers and searched the vehicle. The search resulted in the seizure of several items of jewelry, which were used in the robberies, and other miscellaneous property. TNT officers arrested the driver, identified as 33-year-old Florian Basica, and detained a juvenile female. Family members of the juvenile were summoned to the scene and the juvenile was released to a family member.

San Francisco Police Officers Make Multiple Arrests in Child Exploitation Operation

Since the beginning of the COVID-19 pandemic in the United States, the SFPD Internet Crimes Against Children (ICAC) Unit has seen an increase of online child exploitation cases being reported. As a result, the SFPD ICAC Unit conducted an operation to combat this issue by arresting suspects who were exploiting children online.

ARREST #1

In the Spring of 2020 SFPD Internet Crimes Against Children (ICAC) Unit began an investigation into an individual who was searching for child pornography by uploading child pornography files into an online image search engine. As the result of the investigation the ICAC Unit identified the individual as Peter Bodin, a 54-year-old year old San Francisco resident.

On May 22, 2020, SFPD investigators equipped with Personal Protective Equipment (PPE), served a search warrant on the 100 block of Vienna Street. Several electronic devices were located belonging to Bodin that contained child pornography files. Bodin was placed under arrest for two counts of possession of child pornography. The San Francisco District Attorney's office is prosecuting this case.

ARREST #2

The SFPD ICAC Unit was contacted by the Hillsborough Police Department regarding a fraud investigation that they were conducting. During their investigation, they determined that the subject was also in the possession of child pornography. The subject was identified as Anthony Jasso, a 31-year-old San Francisco resident. The SFPD ICAC unit was familiar with Jasso as he is a registered sex offender based on a prior conviction.

An arrest warrant for Jasso was issued by the San Francisco District Attorney's Office. On May 22, 2020, Jasso was taken into custody on the 500 block of Natoma Street and was booked for possession of child pornography with a prior conviction.

Residential Safety

Empowering Communities to Create a Safer San Francisco

sfsafe.org

Whether you live in a single family home, condo, or a large apartment complex in San Francisco, there are a number of ways you can keep your residence safe and secure. Working together as a community with your neighbors and building management can significantly improve your residential safety.

7 Residential Safety Tips

1 Garage: When entering or leaving the garage, watch to ensure door shuts completely. Lock stored bikes to a sturdy rack.

2 Car: Always lock your vehicle when parked in your garage and remove all valuables. Never leave garage door opener in your vehicle when parked outside your home.

3 Spare Key: Never hide spare keys. If you need to have a spare key available, leave it with a trusted neighbor.

4 Door Buzzer: When a visitor rings your bell, confirm who it is by intercom before you grant them access. Similarly, never let strangers follow you through the front door.

5 Security Cameras & Alarm Systems: Cost effective tools for preventing crime and identifying criminals.

6 Light Timers: Installing timers on the exterior of your residence is an effective and energy efficient way to deter criminal activity.

7 Doors/Windows: Always keep doors and windows locked.

Keep property in good repair. Maintain visibility to your neighbors for increased safety.

Door and Window Safety

Doors:

- Should be made of solid wood or metal
- Have a single cylinder deadbolt lock and a 1-inch bolt
- Have a front door viewer or peep hole with a 180-degree range
- Clearly display unit number

Windows:

- Replace if glass is cracked and replace all damaged or missing locks
- Ground level windows should be burglary resistant: consider purchasing windows with reinforcement wire, laminate, or tempered glass
- Polycarbonate plastic or metal grates can be installed over existing ground level windows
- Windows above ground level are not considered secure: if used for ventilation, lock in position and keep open no more than 3 inches

when you get in your car

See something, say something
If you see a motorist in distress, call 9-1-1 versus stopping to help
