## San Francisco Police Arrest Burglary Suspect 21-136

JULY 09, 2021 | 5:06 PM

On July 6, 2021, at approximately 10:20 am, SFPD officers responded to the 1600 block of Folsom Street regarding a hot prowler burglary in progress. While they were en route, dispatchers advised officers that shots had been fired at the location.

Upon arrival, officers detained Danny Babineaux, male, 37, San Francisco in a ground-floor restaurant.

The investigation revealed that the victim, a 66-year-old male, heard noises coming from the kitchen of his apartment, which is located on the second floor. He went to his kitchen and encountered Babineaux who was climbing through the kitchen window. The victim told officers he feared for his safety, retrieved a handgun, and returned to the kitchen. According to the victim, Babineaux was now inside the kitchen, attempted to leave by a rear door but then turned towards the victim. The victim discharged the firearm, but Babineaux was not struck by gunfire.

Babineaux fled downstairs to a common area between a restaurant and the apartments. The victim told him to stop. Babineaux complied and the victim watched him until police arrived.

Babineaux was booked at SF County Jail for burglary (459 1st degree) and burglary (459 PC 2nd degree).

While an arrest has been made, this remains an active investigation. Anyone with information is asked to call the SFPD Tip Line at [1-415-575-4444](tel:1-415-575-4444) or Text a Tip to [TIP411](text:TIP411) and begin the text message with SFPD. You may remain anonymous.

## SFPD's award-winning Crisis Intervention Team wins national acclaim from law enforcement trade publication 21-134

JULY 07, 2021 | 8:25 PM

***Force Science Institute lauds approach to volatile and dangerous police encounters that has seen San Francisco police 'peacefully resolve 99.9 percent of crisis-related calls' for service***

The trade publication of a national research, training, and consulting organization for law enforcement agencies and officials today published [a major feature story](#) on the San Francisco Police Department's groundbreaking Crisis Intervention Team. Noting that SFPD officers on average "peacefully resolve 99.9 percent of crisis-related calls" for service, today's report by Force Science Institute drew heavily from a well-received [June 9, 2021 presentation to the San Francisco Police Commission](#) by SFPD Lieutenant Mario Molina. As part of that, Lieutenant Molina provided police commissioners with the following:

- [SFPD CIT Annual Report](#) (June 9, 2021)
- [SFPD CIT Presentation](#) (June 9, 2021)

Among those quoted in today's feature story was Dr. John Azar-Dickens, a Force Science Institute instructor and expert in psychology and de-escalation, who praised the program: "The SFPD CIT team is one of the most sophisticated and effective law enforcement crisis intervention teams I have ever seen. Their 2020 report to the police commission features compelling evidence of their continued effectiveness."

In the wake of the national outcry for reforms in police training for uses of force following the murder of George Floyd in Minneapolis last year, the San Francisco Police Department's approach to de-escalating dangerous and often highly volatile scenarios has earned national attention in other news outlets, including the following:

["Adam Toledo, Daunte Wright and George Floyd: Would more de-escalation training stop police from killing people?"](#) by Marco Della Cava, USA TODAY, April 16, 2021; and ["Training cops to de-escalate,"](#) staff report, The Week, May 8, 2021.

Lieutenant Molina, who serves as coordinator of SFPD's Crisis Intervention Team program, noted in today's report that as of December 2020, more than 96 percent of San Francisco police officers were trained in Crisis Intervention Threat Assessment and Field Tactics, with more than 52 percent receiving certification status in Crisis Intervention Training. Today's report also noted that SFPD's CIT Training and Crisis Response program won an Award of Distinction for Excellence in 2019 from the California Peace Officers Association.

"While the statistics are compelling, our officers represent Crisis Intervention at its best," Lieutenant Molina was quoted as saying in today's FSI feature story. "It is in their humanity, and everyday real-life applications of de-escalation and strategic field tactics that we are able to see such profound results."

## PREVENT GARAGE DOOR BREAK-INS

Garages can sometimes be the most vulnerable area of the home and they are often the entry point most targeted by thieves because of the easy access to the home. Here are some tips to help secure your garage and protect it from theft.

### ALWAYS CLOSE YOUR GARAGE DOOR

This may seem obvious, but just drive through any residential neighborhood and you'll likely see a few wide-open garage doors. This is an invitation to burglars and at the very least, you're allowing passersby to easily view the contents of your garage.

### INSTALL MOTION-SENSITIVE LIGHTS

Homes and garages with poor exterior lighting become more appealing targets for burglars. Ensure all entry points are well-lit. Constant lighting supplemented by motion sensitive lighting is best.

### REINFORCE THE GLASS ON THE GARAGE DOOR

Add vinyl adhesive to reinforce garage windows. You can also opt for a frosted or translucent glass design to allow sunlight in while obscuring contents inside.

### DON'T LEAVE GARAGE DOOR REMOTE IN YOUR CAR

A garage door remote is basically another key into your home and thieves won't hesitate to use it if they find it. Opt to use a remote on a keychain.

### INSTALL AN INTERIOR MANUAL GARAGE DOOR LOCK

When leaving on a vacation or for extended periods of time, disconnect automatic door motor and install a manual lock.

### TIE EMERGENCY RELEASE CORD

Tying your emergency release cord into a small ball will make it more difficult to reach by thieves who manage to break the garage windows.

### INSTALL SURVEILLANCE CAMERAS

There should be at least 1 exterior mounted camera facing the street and registered with the D.A.'s office.

### SECURE ANY VALUABLES

Keep all tools in cabinet systems with locks and be sure to hang and lock any bicycles. As much as possible, try to avoid keeping valuable items in the garage or inside vehicles.

### HAVE A QUALITY, FUNCTIONING GARAGE DOOR

Garage doors should be as secure, sturdy, and well-built as your front door and should remain in good condition and tight fitting. Deadbolts should also be added to the garage-to-house door.

### INSTALL INTERIOR MAIL SLOT HOOD COVER

If the garage door is equipped with a mail slot, a hood cover will prevent any view into the garage and its contents, eliminating enticement to enter.

For additional information, please contact SF SAFE at (415) 553-1984 or visit [sfsafe.org](http://sfsafe.org)

# PREVENT GARAGE DOOR BREAK-INS

## ANATOMY OF A SAFE GARAGE

### Your home is only as safe as its weakest entry point.

Your garage is an important part of your home and securing your garage is one of the most essential steps to securing your entire home. It is always recommended to regularly check and update your home's security system and safety measures.

For more information, please contact SF SAFE at (415) 553-1984 or visit [sfsafe.org](http://sfsafe.org).

With the Covid-19 restrictions lifting in phases and many of us are starting to venture out again, here are some Package Theft Prevention Guide from SFSafe to help prevent your packages from being stolen.

## PACKAGE THEFT PREVENTION GUIDE

### ✉️ **WON'T BE HOME?**

Use the "Hold Package" option at USPS.com to have packages held at location post office for pick up. You can also arrange for neighborhoods to pick up any packages that might be delivered.

### ✉️ **USE SPECIAL SERVICES**

Use USPS special services like *Signature Confirmation* or *Registered Mail* to add a layer of security.

### ✉️ **REQUEST NONDESCRIPT PACKAGING**

When completing your online order, opt for packaging that conceals the item or select the 'gift' option to ensure package arrives in a plain box especially when ordering from a high-end store.

### ✉️ **NETWORK WITH NEIGHBORS**

Neighborhood groups on social media or community apps can provide a system for reporting suspicious activity. This is also a good way to keep your deliveries and neighborhood secure.

### ✉️ **PORCH AREA VISIBILITY**

Keep the porch area clear and visible. The more likely a would-be thief is to be seen, the more likely they are to choose another target.

### ✉️ **CUSTOMIZE DELIVERIES**

Customize deliveries by adding specific delivery instructions using USPS.com and your tracking number. You can also schedule packages to arrive when you are home or reroute packages.

### ✉️ **DELIVER TO SECURE LOCATIONS**

Send packages to secure locations such as Amazon Lockers, FedEx and UPS locations, P.O. Boxes, and local post office.

### ✉️ **USE MODERN ALTERNATIVES**

Take advantage of contemporary options like smart lockers, lockboxes, cameras, motion detection lighting, alarms like Package Guard, and services like Doorman.

## SF SAFE CITY CAMERA PROGRAM

Through the SF SAFE City Camera Program, we address public safety needs and help reduce crime through collaboration.

By partnering with community stakeholders, such as local merchant associations, businesses, and community residents from San Francisco's high trafficked neighborhoods, commercial corridors, and our City government, we identify specific needs, install public safety cameras and create, develop, and implement safety plans with a meaningful community-led and community-driven process.

Through this program, SF SAFE targets high-risk and high-traffic city blocks comprising about 20-30 businesses or residential areas for the installation of high definition security cameras and surveillance technology. Typically, a coverage area of about 18-24 camera views per corridor is provided. Camera installation projects for commercial corridors take about 12 weeks from start to finish and encompass outreach, assessment, mapping and system installation. We work with technology vendors as the technology solutions and data privacy provider for this program, accountable to the most stringent level of self-imposed policy standards.

In addition to the security cameras acting as a visible crime deterrent, the footage is an extraordinary tool in assisting businesses and community members in the investigation of criminal activity if/when any occur. This program levels the playing field, holding all involved accountable, creating an equitable and true evidence chain for investigators and public defenders alike, as an innovative alternative policing tool empowering communities to take ownership over their own public safety needs.

#### Historical Traffic Stops Reports

The Department previously used eStop to collect information on traffic stops. On July 1, 2018, the Department discontinued the use of eStop and began using the State of California's Stop Data Collection System (SDCS). Current stop data collection can be found in the [quarterly 96a Use of Force/Encounter Report for the correlating quarter](#).
