Captain Nicole Jones' Message

Thur July 29, 2021

Hello, Ingleside Community!

We are knee deep in summer, and wading into July. Fireworks continue to be on the forefront of the community's mind. To piggyback off last month's message, please call 311 if you see someone lighting off fireworks, can give an exact location of occurrence, and can describe the suspect. Please call 911 to report actual fires and injuries related to fireworks use. If you have information regarding the illegal possession or sales of fireworks by a specific individual or location, please consider calling our anonymous tip line at 415-558-5588 if you feel more comfortable. As always, please keep 911 available for people with police, fire, or medical emergencies.

The Captain's Tip of the Month for July 2021 is:

REMEMBER TO CLOSE ANY OPEN WINDOWS BEFORE YOU LEAVE HOME.

I'd also like to extend this to nighttime hours as well, even if you may be home. Windows are increasingly left open in warmer weather. Any open windows that are easily accessible are targets for burglars. This includes ground floor windows and second story ones with trees in close proximity. We have had several incidents in the Ingleside District recently in which trees were climbed to access open second story windows, resulting in hot prowl burglaries.

Captain's Message continued:

As statewide pandemic restrictions lift, more people are returning to the streets. I want to reiterate the importance of staying alert and mindful of safety. Protect yourself from becoming a target of thieves. You can do this by taking the following safety precautions:

- Avoid holding your cell phone and/or wearing headphones or earbuds while walking or using public transportation.
- Be careful of leaving your cell phone on the table while dining in restaurants.
- Only bring essential items with you while out and about.
- Never leave your valuables unattended!

I also wanted to highlight that the option is now open for members of the public to attend Ingleside Station's next community meeting in person. As of now, we are continuing to use Zoom for these meetings, but have also opened up the meeting to in-person participation as well. I encourage people to attend in the manner they feel most comfortable with in July.

In closing, here's this month's "Finn for the Win," crime tips from my seven-year-old, Finn, for the Ingleside Community...

Per Finn: "Don't pick golden poppies. My brother did that. He should be in jail, but he said it was an "accident.""

In his brother's defense, he was picking the flower for me and didn't realize it was special. He sure knows now. Finn made sure of it.

Also, per Finn: "Never steal stuff because it's bad and you can go to jail."

I think we can all agree on this.

Notable Ingleside Arrests & Incidents

Although every arrest and incident occurring in the Ingleside District isn't mentioned in our weekly newsletter, our officers are out there every day, working to make the Ingleside District a safer place. In this section of our newsletter, we want to take time to highlight the excellent work being done by our officers. We want to bring attention to these incidents and extend some well-deserved appreciation to the officers involved in these notable incidents.

Thank you, and keep up the great work!

07-24-21 / 07:24 p.m. / Stolen Vehicle at Alemany Blvd. & Naglee Ave.

Officers Ahern, George, and Salazar were on patrol when they observed a vehicle stopped along the roadway, blocking both a lane of traffic and the bicycle lane. Stopped behind the vehicle, the officers observed a motorcycle. As the officers were turning their vehicle around in order to go back and investigate further, both the vehicle and motorcycle sped away at a high rate of speed. The officers continued towards where they last saw the vehicles traveling, and further ahead, they observed a large cloud of smoke and fire coming from an intersection. The officers arrived at the intersection and found the same motorcycle unattended, and on fire. The vehicle was on scene as well, and began to drive away as the officers arrived. The officers conducted a traffic enforcement stop on the vehicle, and contacted the two occupants inside the vehicle. The passenger had visible injuries, and the driver stated that he was taking the passenger to the hospital because he had just been in a vehicle collision. The officers summoned an ambulance for the vehicle's passenger, and they proceeded with their investigation.

While waiting for the ambulance, Officer Salazar observed the vehicle driver retrieve what appeared to be a bag containing illegal narcotics, and then attempt to destroy the contents. Officer Salazar intervened and was able to secure the suspected narcotics. Officer George determined that the motorcycle was reported stolen and that the injured passenger in the vehicle was the operator of the stolen motorcycle. Meanwhile, Officer Ahern determined that the motorcycle operator had a suspended driver's license. The officers subsequently recovered narcotics paraphernalia and additional suspected narcotics inside the vehicle. Officer George tested the suspected narcotics and determined they were illegal. As a result of the combined and thorough efforts of the officers involved, both subjects were arrested and booked for charges related to the stolen vehicle, conspiracy, and narcotics. The motorcycle operator was also charged with the driver's license violation. Report number 210468761.

Debra's involvement in community work took her to organizations that provided mentoring and scholarships for former foster youth that had a desire to attend college, and assisting teens that had dropped out of high school or had fallen behind scholastically.

For the past three years, Debra has been on the Board of Directors of the Miraloma Park Improvement Club, and Chair of the Safety Committee. The Safety Committee promotes crime prevention through education, gathers and shares reports of criminal activity and safety tips with the Miraloma Park neighborhood, and performs safety-related advocacy for Miraloma Park with City agencies. As a representative of Miraloma Park, Debra was invited by then-Ingleside Captain Hart to be a member of Ingleside Station's Community Police Advisory Board, providing her with the opportunity to be involved in National Night Out. Congratulations, Debra!

Crime Prevention and Safety

In reviewing our incident reports, we see opportunities to reach out to our community members and provide you with information related to crime prevention and safety tips.

We encourage you to take some time to look through the following pages, in hope that this information will help us all play a part in making our community safer, and prevent someone from being the victim of a crime.

We also encourage you to contact San Francisco Safe at 415-553-1984 or www.sfsafe.org for more crime prevention tips.

Definition of Community Policing

Community policing, or community-oriented policing, is a strategy of policing that focuses on police building ties and working closely with members of the communities.

- Homeless Outreach and Outreach to Drug Users: Ingleside Station officers coordinate with city agencies to provide outreach and assistance to rehabilitate those who are dependent on illegal drugs and outreach to homeless individuals to connect them with resources and support.
- Foot Patrols: Ingleside Station has foot beat officers assigned to the Geneva, Leland and Cortland corridors.
- Monthly Police Community Relations Meetings: Community Meetings are held continuously. Station personnel also attend meetings with merchant groups, business groups, development authorities and others. Concerns are voiced and addressed through problem solving.
- Email Updates: Ingleside Station sends out newsletter updates to residents in the District that alerts residents of crime trends, upcoming community events, crime prevention tips, and information on how to contact officers at the District Station.

Definition of Suspicious Activity

Suspicious activity is any observed behavior that could indicate a crime-related incident has been committed, or about to be committed. Unusual items or situations: A vehicle is parked in an odd location, a package/luggage is unattended, a window/door is open that is usually closed, or other out-of-the-ordinary situations occur.

The following are some examples of Suspicious Activity that are “In progress” crimes, which demand an immediate call to 9-1-1:

- ◆ An individual peering into vehicles, to try, and locate any valuables left unattended.
- ◆ An individual trying door handles to vehicles, and/or residences to gain access to the vehicle and/ or residence.
- ◆ An individual checking front doors of residences to locate any unattended packages, or individuals following delivery trucks to see where the truck is dropping off packages.

Preventing “Keyless” Auto Break-ins & Thefts

Nationwide, auto break-ins and auto thefts continue to be a common occurrence due to the opportunistic nature of the crime, the speed at which the incident can occur, and the potential for rewards. As motorists and passengers, we’ve all had to become proactive in preventing this type of crime by adopting basic measures, such as securing all vehicle doors and windows, keeping all valuables and other property out of view, not leaving a vehicle running and unattended, and using steering wheel locking devices, alarms, ignition locking devices, etc.

As vehicle technology has advanced (remote entry/unlocking/starting, keyless fobs, vehicle ignitions, etc.), so have the methods used by thieves to enter vehicles to take property, or the vehicle itself. Law enforcement agencies have seen a rise in “keyless” auto break-ins and auto thefts, involving the use of electronic devices designed for the purpose of defeating wireless unlocking technology. As these types of incidents become more common, we all need to do our part to help prevent these crimes.

How does it work? In short, auto thieves are using a variety of electronic devices to intercept radio signals transmitted through key fobs and remotes. These signals include “rolling codes” which change with each press of a button, and “fixed pin codes” commonly used in older technology, such as garage door openers. Many of these devices are small, easily concealable in a pocket, and can be used to exploit signals from key fobs and remotes in order to easily unlock vehicle doors, start the vehicle ignition, and open electronic garage doors, without damage or use of force. Of further concern, is the hacking of mobile apps that allow a driver to unlock car doors through the aid of their phone.

So, how can you best prevent keyless car theft? Here are some basic habits you can practice to keep from becoming a victim:

- After locking your doors remotely, check for alarm indicator lights to be illuminated, and check to see that your car doors are locked.
- Consider storing keys and key fobs that transmit wireless signals in a small signal-blocking protective pouch. These pouches are available online and in stores, and work like the protective pouches and wallets that store passports, credit cards, and other forms of indicia that utilize radio signal technology.
- Some key fobs can be turned off. Find out if yours can, and do so when you’re away from your vehicle, or at home.
- Use technology to your advantage! Tracking devices are available which can help to monitor activity with your vehicle, and track it if stolen. Also, update any software installed on your vehicle.
- Consider placing lighting and security cameras in front of your home which not only serve as a deterrent to home burglaries, but are also positioned so as to make your vehicle readily visible and less attractive to thieves.

Keep in mind that a thief’s first instinct is to get away as soon as they’ve committed a crime, so calling in as soon as you observe suspicious activity will provide officers with added valuable time to respond. This not only helps to prevent crime, but increases the likelihood of making an arrest, and making your neighborhood safer from criminal activity.

Stay vigilant, and safe!

What is a Robbery

Robbery is the felonious taking of personal property in the possession of another, from his/her person or immediate presence, and against his will, accomplished by means of force or fear (section 211 California Penal Code.)

212 pc The **Fear** mentioned in Section 211 may be either:

1. The fear of an unlawful injury to the person or property of the person robbed, or of any relative of his or member of his family; or,
2. The fear of an immediate and unlawful injury to the person or property of anyone in the company of the person robbed at the time of the robbery.

213 (a) Robbery is punishable as follows:

(1) Robbery of the first degree is punishable as follows:

(B) In all cases other than that specified in subparagraph (A), by imprisonment in the state prison for three, four, or six years. (2) Robbery of the second degree is punishable by imprisonment in the state prison for two, three, or five years.

Don't be the NEXT

VICTIM!

A Message From:
Captain Nicole Jones
Commanding Officer
Ingleside Police Station

Did You Know?

Robbers and thieves are targeting people that are on their iPhone or iPad as they exit the public transportation. Try to avoid displaying or using them in public. To maximize your personal safety, take time to plan and prepare at home to for your safety before leaving. Your worth it!

Here are a few tips you can follow to make yourself safer

- Digital music players and cell phones are a common target of thieves and robbers. Wearing headphones and ear buds greatly reduce your ability to hear and distracts you from potential dangers.
- Limit your valuables by carrying only what you need.
- When on the street, be ALERT and AWARE at all times. Keep "GOOD EYE" contact with the people around you.
- Walk with confidence and purpose. Most victims are targeted because they appear not to be paying attention to their surroundings.
- A handbag or book bag with a strap should not be worn across the body. It should be carried under that arm and released if grabbed.
- If taking public transportation, have your money or your Fast Pass ready in hand. Do not fumble with your wallet; you might draw attention to a pickpocket.
- While on public transportation (MUNI Bus) be aware that most robberies occur when the bus stops and happens to the people that are seated by the back doors.
- Trust your instincts! If you feel uncomfortable or threatened by another person(s), seek help immediately. A whistle is a great device to have when you need to call attention to yourself.

SFPD Ingleside Station

Protect Yourself

- When going home, call ahead, let someone know where you are and the route you are taking.
- There is safety in numbers walk home with another person or a group, never alone.
- Always use well lit streets, and never take short cuts.
- Have your house/car keys in hand ready to use before you get to the door.

Between the Numbers

Protect your laptop

The majority of electronic property that is stolen is because the thieves can see it! Carry your laptops in non-descript bags. Standard cases for laptops clearly portray the contents making it easier for thieves to spot in a crowd.

Safety in your car

Close the Door!

People usually feel safe when they are within a mile radius of their home so they let their guard down. Thieves know this and usually watch for people coming home that are distracted with groceries or packages. If you are like most people, you really don't check the area prior to opening your garage door. In San Francisco some garages are not attached to the home. Here are some general tips for your safety:

- Check the area visually for suspicious persons lurking or trying to conceal themselves.
- Follow your instincts drive around the block if you see someone suspicious.
- When unloading your car, if possible, close the garage door before getting out of the car.
- For a detached garage, have someone come out from the house and help.
- Never leave the car unattended in the garage while unloading.
- Never leave the keys in the ignition or trunk.
- Keep shrubs trimmed low so persons cannot hide.
- Install a motion light outside the garage and an automatic light inside.
- Make sure your remote and door are working properly.

Don't be the next... VICTIM!

Good Car Safety Habits to Adopt

1. Never leave your car running unattended.
2. Lock your doors when you get in your car.
3. If you see a motorist in distress, call 9-1-1 rather than stopping to help.
4. If you are being followed, drive to the nearest police or fire station. A populated area is a good default.
5. Keep your vehicle and tires in good condition to prevent breakdowns – stranding you in a dark or unfamiliar place.

SAFE Car Theft Prevention and Break-in Safety

Empowering Communities to Create a Safer San Francisco

sfsafe.org

As vehicle break-ins continue to be problematic in San Francisco, SAFE's role in the community is more important than ever. Your role is critical, too. You may be able to minimize the chance of a vehicle break-in, theft or carjacking. Don't become a victim! Use common sense. It's your best defense.

6 Theft and Break-in Safety Tips When Your Car Is Parked

- 1 **Trunk:** Never leave valuables in your car unattended. If necessary, place valuables in your trunk before you park.
- 2 **Car Lock:** Always lock your vehicle, close windows/sunroof completely, and take the keys.
- 3 **Glove Box:** Remove all papers with your personal information from your vehicle including mail, bills, checkbook, etc. Keep your vehicle title (pink slip) safe at home.
- 4 **Street Light:** Park in a well-lit area that's busy with foot traffic and/or has a parking attendant. Note where you parked.
- 5 **Car Key:** Never keep a spare key in or on your vehicle. Give parking attendant only your car key. Keep your other keys with you.
- 6 **Garage Door Opener:** When parking outside your home, never leave your garage door opener in your vehicle.

Cars are less likely to be broken into when they appear empty - never leave valuables in your vehicle.

If You Become a Victim of Vehicle Theft or Break-In

The best way to prevent vehicle theft or break-in is to always lock doors, close windows/sunroof, and never leave valuables in your car. If a theft or break-in occurs, report immediately to the police. Provide detailed information that can help identify your vehicle or stolen items:

- License plate number and VIN number
- Any identifying features that make your vehicle distinctive (stickers, window decals, dents, etc.)
- Any special items of value (phone, radio, GPS, CD player, tire brand and size)

Avoid carjacking by staying alert when you stop. If carjacked, do not resist. Give up your car and go to a safe place to dial 9-1-1.

Safety Tips Inside Your Building

1. Stay alert in areas such as the garage, laundry room, elevators, stairwells and hallways
2. Shared areas should be well-lit and painted in white or a light color
3. While in the elevator, stand close to the control panel: if accosted, press the buttons of all floors
4. Ensure your mailbox is secure to prevent identity theft: list only your first initial and last name

Residential Safety

Empowering Communities to Create a Safer San Francisco

sfsafe.org

Whether you live in a single family home, condo, or a large apartment complex in San Francisco, there are a number of ways you can keep your residence safe and secure. Working together as a community with your neighbors and building management can significantly improve your residential safety.

7 Residential Safety Tips

- 1 **Garage:** When entering or leaving the garage, watch to ensure door shuts completely. Lock stored bikes to a sturdy rack.
- 2 **Car:** Always lock your vehicle when parked in your garage and remove all valuables. Never leave garage door opener in your vehicle when parked outside your home.
- 3 **Spare Key:** Never hide spare keys. If you need to have a spare key available, leave it with a trusted neighbor.

- 4 **Door Buzzer:** When a visitor rings your bell, confirm who it is by intercom before you grant them access. Similarly, never let strangers follow you through the front door.
- 5 **Security Cameras & Alarm Systems:** Cost effective tools for preventing crime and identifying criminals.
- 6 **Light Timers:** Installing timers on the exterior of your residence is an effective and energy efficient way to deter criminal activity.
- 7 **Doors/Windows:** Always keep doors and windows locked.

Door and Window Safety

Doors:

- Should be made of solid wood or metal
- Have a single cylinder deadbolt lock and a 1-inch bolt
- Have a front door viewer or peep hole with a 180-degree range
- Clearly display unit number

Windows:

- Replace if glass is cracked and replace all damaged or missing locks
- Ground level windows should be burglary resistant: consider purchasing windows with reinforcement wire, laminate, or tempered glass
- Polycarbonate plastic or metal grates can be installed over existing ground level windows
- Windows above ground level are not considered secure: if used for ventilation, lock in position and keep open no more than 3 inches

建築物內的安全訣竅

1. 在車庫、洗衣間、電梯、樓梯及走廊等地區時要保持警覺。
2. 公共區域應有充足照明並以白色或淺色漆粉刷。
3. 在電梯內，靠近樓層控制鈕的地方站立；若有人逼近，將所有樓層的按鈕按下。
4. 確保您的郵箱安全，以防身分遭到盜竊：只列出您的名字首字母和姓。

住宅安全

加強社區力量，創造一個更安全的三藩市

sfsafe.org

無論您住在三藩市的獨棟家庭住宅、共渡公寓 (康斗) 或大片公寓住房，您可以利用下述方法保持您住所的安全。和鄰居及建築物管理單位共同合作，發揮守望相助的精神，以大幅改善住宅安全。

7 個住宅安全訣竅

1. **車庫**：進入或離開車庫時，注意車庫門務必完全關上。收納自行車時，請鎖在牢固的車架上。
2. **汽車**：停在車庫內的車子要鎖上，並帶走所有的貴重物品。將車停放在自家住宅外時切勿將車庫門遙控器留在車內。
3. **備用鑰匙**：切勿藏起備用鑰匙。如果您需要一把備用鑰匙，請將它交給可信任的鄰居保管。
4. **門鈴**：當有訪客按您的門鈴時，先用對講機確認來者何人後再讓其入內。同樣地，切勿讓陌生人跟隨您進過前門。
5. **監視攝影機和警報系統**：是防止犯罪和指認罪犯的高成本效益工具。
6. **燈光定時器**：在您住宅外部安裝定時器是一種遏止犯罪活動的有效且節能的方式。
7. **門 / 窗**：隨時保持門窗鎖上。

保持住宅良好的維修狀態。讓鄰居看得到您的住宅，以增加安全性。

門窗安全

門：

- 應以實心木或金屬材質製成
- 有一個單圈固定栓鎖和一個一英寸的螺絲
- 有一個視角涵蓋 180 度的前門觀看裝置或窺視孔
- 清楚顯示門牌號碼

窗：

- 如果窗戶玻璃有裂縫要更換，並且應更換所有缺損的鎖
- 地面樓層的窗戶應具有防盜功能：考慮購買含有強化金屬絲、層壓板或強化玻璃的窗戶
- 可在現有的地面樓層窗戶上加裝聚碳酸酯膠或金屬材質的格柵
- 地面樓層以上的窗戶並不安全：如果用來通風，請將它鎖好並且不要打開超過 3 英寸

PREVENT GARAGE DOOR BREAK-INS

Garages can sometimes be the most vulnerable area of the home and they are often the entry point most targeted by thieves because of the easy access to the home. Here are some tips to help secure your garage and protect it from theft.

ALWAYS CLOSE YOUR GARAGE DOOR

This may seem obvious, but just drive through any residential neighborhood and you'll likely see a few wide-open garage doors. This is an invitation to burglars and at the very least, you're allowing passersby to easily view the contents of your garage.

INSTALL MOTION-SENSITIVE LIGHTS

Homes and garages with poor exterior lighting become more appealing targets for burglars. Ensure all entry points are well-lit. Constant lighting supplemented by motion sensitive lighting is best.

REINFORCE THE GLASS ON THE GARAGE DOOR

Add vinyl adhesive to reinforce garage windows. You can also opt for a frosted or translucent glass design to allow sunlight in while obscuring contents inside.

DON'T LEAVE GARAGE DOOR REMOTE IN YOUR CAR

A garage door remote is basically another key into your home and thieves won't hesitate to use it if they find it. Opt to use a remote on a keychain.

INSTALL AN INTERIOR MANUAL GARAGE DOOR LOCK

When leaving on a vacation or for extended periods of time, disconnect automatic door motor and install a manual lock.

TIE EMERGENCY RELEASE CORD

Tying your emergency release cord into a small ball will make it more difficult to reach by thieves who manage to break the garage windows.

INSTALL SURVEILLANCE CAMERAS

There should be at least 1 exterior mounted camera facing the street and registered with the D.A.'s office.

SECURE ANY VALUABLES

Keep all tools in cabinet systems with locks and be sure to hang and lock any bicycles. As much as possible, try to avoid keeping valuable items in the garage or inside vehicles.

HAVE A QUALITY, FUNCTIONING GARAGE DOOR

Garage doors should be as secure, sturdy, and well-built as your front door and should remain in good condition and tight fitting. Deadbolts should also be added to the garage-to-house door.

INSTALL INTERIOR MAIL SLOT HOOD COVER

If the garage door is equipped with a mail slot, a hood cover will prevent any view into the garage and its contents, eliminating enticement to enter.

PREVENT GARAGE DOOR BREAK-INS

ANATOMY OF A SAFE GARAGE

Your home is only as safe as its weakest entry point.

Your garage is an important part of your home and securing your garage is one of the most essential steps to securing your entire home. It is always recommended to regularly check and update your home's security system and safety measures.

For more information, please contact SF SAFE at (415) 553-1984 or visit sfsafe.org.

PACKAGE THEFT PREVENTION GUIDE

One rarely falls in love without being as much attracted to what is interestingly wrong with someone as what is objectively healthy

✉️ WON'T BE HOME?

Use the "Hold Package" option at USPS.com to have packages held at location post office for pick up. You can also arrange for neighborhoods to pick up any packages that might be delivered.

✉️ USE SPECIAL SERVICES

Use USPS special services like *Signature Confirmation* or *Registered Mail* to add a layer of security.

✉️ REQUEST NONDESCRIPT PACKAGING

When completing your online order, opt for packaging that conceals the item or select the 'gift' option to ensure package arrives in a plain box especially when ordering from a high-end store.

✉️ NETWORK WITH NEIGHBORS

Neighborhood groups on social media or community apps can provide a system for reporting suspicious activity. This is also a good way to keep your deliveries and neighborhood secure.

✉️ PORCH AREA VISIBILITY

Keep the porch area clear and visible. The more likely a would-be thief is to be seen, the more likely they are to choose another target.

✉️ CUSTOMIZE DELIVERIES

Customize deliveries by adding specific delivery instructions using USPS.com and your tracking number. You can also schedule packages to arrive when you are home or reroute packages.

✉️ DELIVER TO SECURE LOCATIONS

Send packages to secure locations such as Amazon Lockers, FedEx and UPS locations, P.O. Boxes, and local post office.

✉️ USE MODERN ALTERNATIVES

Take advantage of contemporary options like smart lockers, lockboxes, cameras, motion detection lighting, alarms like Package Guard, and services like Doorman.

YOUR BIKE HAS BEEN STOLEN. NOW WHAT?

Here's what you should do next to increase your chances of recovering your bike:

➔ File a Police Report

You can do this in one of three ways:

- Online at [sanfranciscopolice.org/reports](https://www.sanfranciscopolice.org/reports)
- Via phone by calling (415) 553-0123
- In person by going directly to your district police station

➔ Call or Email SF SAFE

Give us a call so we can list your bike as stolen on our database. You can reach us at (415) 553-1984 or info@sfsafe.org.

➔ Register

If you haven't done so already, register your bike at nonprofit bike registry, [bikeindex.org](https://www.bikeindex.org). If you are already registered, take action to flag your bike as stolen.

➔ Read Up

SF SAFE recommends reading "What to Do After Your Bike Has Been Stolen" on Medium. The article has a multitude of gems about where and how to post about your bike on social media to increase chances of recovering it.

➔ Create a Google Alert

By creating a Google alert for bikes being sold that match the make and model of your bike, you increase your chance of finding it.

➔ Don't Recover Your Bike Yourself

If you see your bike for sale on Craigslist or OfferUpNow.com, don't try to recover it yourself. Contact SFPD directly.

➔ Keep in Touch

If the police contact you to return your bike or if you recover it, please let us know! That way, SF SAFE can keep our files updated.

Visit www.sfsafe.org for more safety tips!

If you have any questions, please email safebikessf@sfsafe.org

SHARING THE ROAD WITH CYCLISTS

When it comes to safely sharing the road with cyclists, it's paramount for drivers to learn how to coexist.

➔ Share the Road

When out and about, drivers need to be ever-mindful of sharing the road with cyclists.

➔ Stay Off the Horn

Sudden honking might startle a cyclist and can cause them to swerve into traffic or off the road.

➔ Follow the 3 Foot Rule

Maintain a distance of 36 inches from cyclists whenever passing them. If possible, keep an even wider berth if there's bad weather or if in a higher speed limit zone.

➔ Mind Your Blind Spots

Drivers should double-check their mirrors when changing lanes, making turns, and especially before opening their car door after parking.

➔ Be Cautious with Kids

Kids can be unpredictable since their motor skills and decision-making faculties aren't fully developed. Be on alert when driving near schools and residential areas.

➔ Be Patient

Don't tailgate a cyclist. When you need to pass one, patiently wait until it's safe to do so.

Visit www.sfsafe.org for more safety tips!

If you have any questions, please email safebikessf@sfsafe.org

Active members must participate in one 4-hour drill in each calendar year to remain active but may also donate more time during various Station support and outreach activities throughout the year. ALERT members have many opportunities to work alongside Officers and to support the community throughout the year.

Rights and Responsibilities under California Whistleblower Laws (Re-issue DB 12-028)

The existing Whistleblower Law (California Labor Code Section 1102.5, et seq.) prohibits employers from preventing an employee from disclosing violations of a state or federal statute, or a violation or noncompliance with a state or federal regulation to a government or law enforcement agency, or from retaliating against an employee who makes a disclosure. A violation is punishable as a misdemeanor.

The law extends protections to employees who report a violation of a state or federal statute, or a violation of or noncompliance with a state or federal rule or regulation, or who exercised these rights in former employment.

The law prohibits an employer from retaliating against an employee for exercising any of these rights, including those provided under existing law, provides an additional civil penalty for violations, and establishes the evidentiary burdens of the parties participating in a civil action or administrative hearing involving an alleged violation.

The law also established a "Whistleblower Hotline" within the Attorney General's office. The Hotline Number is 1-800-952-5665. Calls made to the hotline will be reviewed and forwarded to the appropriate government authority.
