Hello everyone,

I wish you all a Happy Thanksgiving. I hope you all get to enjoy the company of your friends and loved ones and a safe and enjoyable holiday.

Just a quick word about all these flash mob smash and grab thefts that we have all seen in the news lately. If you see suspicious activity of this nature, please report it to 911. There will be an increased police presence at many of the City's shopping destination in effort to deter this unsightly criminal behavior. Every time I see this it makes me upset not just for the hard-working merchants that suffer economic loss to their businesses but to all of us as San Franciscans as it tarnishes the view of our great City. Arrests have been made and I am hopeful those responsible are held accountable.

Secure you automatic garage door openers check out this video on YouTube <https://www.youtube.com/watch?v=7n-Xiamcbc>

Also power down any Bluetooth devices you leave in your car when out shopping or otherwise so thieves can not detect a Bluetooth signal being emitted from your vehicle. Please visit our public safety partner SFSAFE.ORG for more safety tips!

Be safe,
-Captain Nick Rainsford

SF SAFE CITY CAMERA PROGRAM

Through the SF SAFE City Camera Program, we address public safety needs and help reduce crime through collaboration.

By partnering with community stakeholders, such as local merchant associations, businesses, and community residents from San Francisco's high trafficked neighborhoods, commercial corridors, and our City government, we identify specific needs, install public safety cameras and create, develop, and implement safety plans with a meaningful community-led and community-driven process.

Through this program, SF SAFE targets high-risk and high-traffic city blocks comprising about 20-30 businesses or residential areas for the installation of high definition security cameras and surveillance technology. Typically, a coverage area of about 18-24 camera views per corridor is provided. Camera installation projects for commercial corridors take about 12 weeks from start to finish and encompass outreach, assessment, mapping and system installation. We work with technology vendors as the technology solutions and data privacy provider for this program, accountable to the most stringent level of self-imposed policy standards.

In addition to the security cameras acting as a visible crime deterrent, the footage is an extraordinary tool in assisting businesses and community members in the investigation of criminal activity if/when any occur. This program levels the playing field, holding all involved accountable, creating an equitable and true evidence chain for investigators and public defenders alike, as an innovative alternative policing tool empowering communities to take ownership over their own public safety needs.

To learn more about the SF SAFE City Camera Program, email sfsafecitycameraprogram@sfsafe.org.

PREVENT GARAGE DOOR BREAK-INS

ANATOMY OF A SAFE GARAGE

Your home is only as safe as its weakest entry point.

Your garage is an important part of your home and securing your garage is one of the most essential steps to securing your entire home. It is always recommended to regularly check and update your home's security system and safety measures.

For more information, please contact SF SAFE at (415) 553-1984 or visit sfsafe.org.

PREVENT GARAGE DOOR BREAK-INS

Garages can sometimes be the most vulnerable area of the home and they are often the entry point most targeted by thieves because of the easy access to the home. Here are some tips to help secure your garage and protect it from theft.

ALWAYS CLOSE YOUR GARAGE DOOR

This may seem obvious, but just drive through any residential neighborhood and you'll likely see a few wide-open garage doors. This is an invitation to burglars and at the very least, you're allowing passersby to easily view the contents of your garage.

INSTALL MOTION-SENSITIVE LIGHTS

Homes and garages with poor exterior lighting become more appealing targets for burglars. Ensure all entry points are well-lit. Constant lighting supplemented by motion sensitive lighting is best.

REINFORCE THE GLASS ON THE GARAGE DOOR

Add vinyl adhesive to reinforce garage windows. You can also opt for a frosted or translucent glass design to allow sunlight in while obscuring contents inside.

DON'T LEAVE GARAGE DOOR REMOTE IN YOUR CAR

A garage door remote is basically another key into your home and thieves won't hesitate to use it if they find it. Opt to use a remote on a keychain.

INSTALL AN INTERIOR MANUAL GARAGE DOOR LOCK

When leaving on a vacation or for extended periods of time, disconnect automatic door motor and install a manual lock.

TIE EMERGENCY RELEASE CORD

Tying your emergency release cord into a small ball will make it more difficult to reach by thieves who manage to break the garage windows.

INSTALL SURVEILLANCE CAMERAS

There should be at least 1 exterior mounted camera facing the street and registered with the D.A.'s office.

SECURE ANY VALUABLES

Keep all tools in cabinet systems with locks and be sure to hang and lock any bicycles. As much as possible, try to avoid keeping valuable items in the garage or inside vehicles.

HAVE A QUALITY, FUNCTIONING GARAGE DOOR

Garage doors should be as secure, sturdy, and well-built as your front door and should remain in good condition and tight fitting. Deadbolts should also be added to the garage-to-house door.

INSTALL INTERIOR MAIL SLOT HOOD COVER

If the garage door is equipped with a mail slot, a hood cover will prevent any view into the garage and its contents, eliminating enticement to enter.

For additional information, please contact SF SAFE at (415) 553-1984 or visit sfsafe.org

With the Covid-19 restrictions lifting in phases and many of us are starting to venture out again, here are some Package Theft Prevention Guide from SFSafe to help prevent your packages from being stolen.

PACKAGE THEFT PREVENTION GUIDE

✉️ **WON'T BE HOME?**

Use the "Hold Package" option at USPS.com to have packages held at location post office for pick up. You can also arrange for neighborhoods to pick up any packages that might be delivered.

✉️ **USE SPECIAL SERVICES**

Use USPS special services like *Signature Confirmation* or *Registered Mail* to add a layer of security.

✉️ **REQUEST NONDESCRIPT PACKAGING**

When completing your online order, opt for packaging that conceals the item or select the 'gift' option to ensure package arrives in a plain box especially when ordering from a high-end store.

✉️ **NETWORK WITH NEIGHBORS**

Neighborhood groups on social media or community apps can provide a system for reporting suspicious activity. This is also a good way to keep your deliveries and neighborhood secure.

✉️ **PORCH AREA VISIBILITY**

Keep the porch area clear and visible. The more likely a would-be thief is to be seen, the more likely they are to choose another target.

✉️ **CUSTOMIZE DELIVERIES**

Customize deliveries by adding specific delivery instructions using USPS.com and your tracking number. You can also schedule packages to arrive when you are home or reroute packages.

✉️ **DELIVER TO SECURE LOCATIONS**

Send packages to secure locations such as Amazon Lockers, FedEx and UPS locations, P.O. Boxes, and local post office.

✉️ **USE MODERN ALTERNATIVES**

Take advantage of contemporary options like smart lockers, lockboxes, cameras, motion detection lighting, alarms like Package Guard, and services like Doorman.
