Feb 14, 2021 - February 27, 2022

Hello Community Members and Merchants,

Taraval Station Officers have been working very hard keeping the community safe and addressing current crime trends by increasing patrols in hot-spot areas and actively seeking out persons wanted for committing serious crimes in the district (see notable incidents section of newsletter). Over the past two weeks, I have received several letters and emails of commendation regarding the outstanding professionalism and efforts of our Officers. The positive feedback means a lot to our members and I ensure they are properly recognized for their great work. Thank you for taking the time to provide feedback, comments, or suggestions on how we can better collaborate to increase safety in the Taraval District.

Crime Trend - What's Currently Happening

Below are some trending crimes we want the residents and merchants of Taraval District to be aware of.

- We have incidents where the victim was at the gas station on 19th Ave. & Judah St. filling their vehicle's gas tank. The victim would leave their vehicle's door unlocked while waiting for their gas tank to fill up. The suspect would sneak into their vehicle through the unlocked door and steal the victim's belongings without the victim knowing about it. The victim only realized that their items were stolen when they start driving away. (Case# 220140670 & 226031833)

We recommend that when anyone leaves their vehicle, even for a short amount of time, to close the windows and lock the doors. Never leave your vehicle with the keys in the ignition and running.

- Stolen rims and tires in the OMI neighborhood. Victims reported that they returned to their vehicle and found all four wheels were stolen. (Case# 220139413 & 226027569)

We recommend parking your vehicle in your garage if you can, or in a well lit area and in location where many people can see it. Invest in a aftermarket wheel locks.

- Catalytic converter theft throughout the city.

We recommend parking in a well lit area and in location where many people can see it. Install a catalytic converter-specific security device, or have it welded to the car frame. You can also engrave your car's VIN number to the catalytic converter.

- Auto burglaries throughout the city.

SFPD Chief Scott responds to case potentially involving victim DNA 22-024

FEBRUARY 16, 2022 | 9:23 PM

San Francisco Chief of Police William Scott issued the following responses to questions raised today about the purported use of DNA evidence reportedly collected from a one-time rape victim and then allegedly later used to identify and apprehend her as a suspect in an unrelated crime.

The following are attributable to SFPD Chief Bill Scott:

- We must never create disincentives for crime victims to cooperate with police, and if it's true that DNA collected from a rape or sexual assault victim has been used by SFPD to identify and apprehend that person as a suspect in another crime, I'm committed to ending the practice.
- I am informed that our existing DNA collection policies have been legally vetted and conform with state and national forensic standards. However, there are many important principles for which the San Francisco Police Department stands that go beyond state and national standards. We have long embraced sanctuary for our undocumented immigrant communities, for example, and we years ago ended the practice of using condoms as evidence in prostitution cases.
- We will immediately begin reviewing our DNA collection practices and policies. I have engaged with our City Attorney on this issue, and we are committed to working with our partners at Cal DOJ's Collaborative Reform Initiative, our District Attorney's Office, Public Defender's Office, Police Commission, and community-based working group members to pursue any changes necessary that are worthy of our values of "Safety with Respect."
- Although I am informed of the possibility that the suspect, in this case, may have been identified through a DNA hit in a non-victim DNA database, I think the questions raised by our District Attorney today are sufficiently concerning that I have asked my Assistant Chief for Operations to work with our Investigations Bureau to thoroughly review the matter, and report back to me and to our D.A.'s office partners.

Whatever disagreements District Attorney Boudin and I may have, we agree that this issue needs to be addressed. At the end of the day, our respective departments exist to do justice for victims of crime. The last thing we should ever do is discourage their cooperation with us to accomplish that.

- Never leave your home doors unlocked or open. Use dead bolt locks, they are a great deterrent to burglars.
- When you leave, close and lock your windows. Many burglars enter homes and apartments through open windows. Windows on or near fire escapes should remain locked.
- Don't "buzz" strangers in. Don't permit unexpected utility workers, deliverymen, or strangers into your home. Ask them for their I.D. and phone number to their office. Call 911 if you are not sure of their identity. Call the police to report suspicious activity.
- Give your home or apartment an "occupied look." Lights or a radio on automatic times may help deter burglars. Bright motion activated lights are a good deterrent as well.
- Install security cameras or burglar alarms. Most are DIY with easy installation and are assessable with an app on your smart phone.
- If you park your car inside your garage, lock the car doors. Burglars will steal garage door openers and come back when you are not home.
- Trim shrubs and branches away from doors and windows for better visibility.

- Trust your instincts. If you sense trouble, get away as soon as possible.
- Show confidence. Walk at a steady pace, keep your head up and avoid carrying lots of packages...It can make you look defenseless.
- Don't look like an easy target. Robbers want someone who will provide the least resistance. If you look like you know where you are going, walk with your head up and eyes alert, you will most likely be left alone.
- Be observant.
- Remain alert and observe the people around you. Know who is walking behind and in front of you. Things to watch for include suspicious persons, people just loitering around or vehicles.
- Be aware of your surroundings. If you think you are being followed, go to a crowded area.
- Walk in well-lit areas. If possible, do not walk alone.
- Do not carry large amounts of money.
- Carry keys in your hand.

SF SAFE CITY CAMERA PROGRAM

Through the SF SAFE City Camera Program, we address public safety needs and help reduce crime through collaboration.

By partnering with community stakeholders, such as local merchant associations, businesses, and community residents from San Francisco's high trafficked neighborhoods, commercial corridors, and our City government, we identify specific needs, install public safety cameras and create, develop, and implement safety plans with a meaningful community-led and community-driven process.

Through this program, SF SAFE targets high-risk and high-traffic city blocks comprising about 20-30 businesses or residential areas for the installation of high definition security cameras and surveillance technology. Typically, a coverage area of about 18-24 camera views per corridor is provided. Camera installation projects for commercial corridors take about 12 weeks from start to finish and encompass outreach, assessment, mapping and system installation. We work with technology vendors as the technology solutions and data privacy provider for this program, accountable to the most stringent level of self-imposed policy standards.

In addition to the security cameras acting as a visible crime deterrent, the footage is an extraordinary tool in assisting businesses and community members in the investigation of criminal activity if/when any occur. This program levels the playing field, holding all involved accountable, creating an equitable and true evidence chain for investigators and public defenders alike, as an innovative alternative policing tool empowering communities to take ownership over their own public safety needs.

To learn more about the SF SAFE City Camera Program, email sfsafecitycameraprogram@sfsafe.org.

PREVENT GARAGE DOOR BREAK-INS

ANATOMY OF A SAFE GARAGE

Your home is only as safe as its weakest entry point.

Your garage is an important part of your home and securing your garage is one of the most essential steps to securing your entire home. It is always recommended to regularly check and update your home's security system and safety measures.

For more information, please contact SF SAFE at (415) 553-1984 or visit sfsafe.org.

PREVENT GARAGE DOOR BREAK-INS

Garages can sometimes be the most vulnerable area of the home and they are often the entry point most targeted by thieves because of the easy access to the home. Here are some tips to help secure your garage and protect it from theft.

ALWAYS CLOSE YOUR GARAGE DOOR

This may seem obvious, but just drive through any residential neighborhood and you'll likely see a few wide-open garage doors. This is an invitation to burglars and at the very least, you're allowing passersby to easily view the contents of your garage.

INSTALL MOTION-SENSITIVE LIGHTS

Homes and garages with poor exterior lighting become more appealing targets for burglars. Ensure all entry points are well-lit. Constant lighting supplemented by motion sensitive lighting is best.

REINFORCE THE GLASS ON THE GARAGE DOOR

Add vinyl adhesive to reinforce garage windows. You can also opt for a frosted or translucent glass design to allow sunlight in while obscuring contents inside.

DON'T LEAVE GARAGE DOOR REMOTE IN YOUR CAR

A garage door remote is basically another key into your home and thieves won't hesitate to use it if they find it. Opt to use a remote on a keychain.

INSTALL AN INTERIOR MANUAL GARAGE DOOR LOCK

When leaving on a vacation or for extended periods of time, disconnect automatic door motor and install a manual lock.

TIE EMERGENCY RELEASE CORD

Tying your emergency release cord into a small ball will make it more difficult to reach by thieves who manage to break the garage windows.

INSTALL SURVEILLANCE CAMERAS

There should be at least 1 exterior mounted camera facing the street and registered with the D.A.'s office.

SECURE ANY VALUABLES

Keep all tools in cabinet systems with locks and be sure to hang and lock any bicycles. As much as possible, try to avoid keeping valuable items in the garage or inside vehicles.

HAVE A QUALITY, FUNCTIONING GARAGE DOOR

Garage doors should be as secure, sturdy, and well-built as your front door and should remain in good condition and tight fitting. Deadbolts should also be added to the garage-to-house door.

INSTALL INTERIOR MAIL SLOT HOOD COVER

If the garage door is equipped with a mail slot, a hood cover will prevent any view into the garage and its contents, eliminating enticement to enter.

For additional information, please contact SF SAFE at (415) 553-1984 or visit sfsafe.org

With the Covid-19 restrictions lifting in phases and many of us are starting to venture out again, here are some Package Theft Prevention Guide from SFSafe to help prevent your packages from being stolen.

PACKAGE THEFT PREVENTION GUIDE

WON'T BE HOME?

Use the "Hold Package" option at USPS.com to have packages held at location post office for pick up. You can also arrange for neighborhoods to pick up any packages that might be delivered.

USE SPECIAL SERVICES

Use USPS special services like *Signature Confirmation* or *Registered Mail* to add a layer of security.

REQUEST NONDESCRIPT PACKAGING

When completing your online order, opt for packaging that conceals the item or select the 'gift' option to ensure package arrives in a plain box especially when ordering from a high-end store.

NETWORK WITH NEIGHBORS

Neighborhood groups on social media or community apps can provide a system for reporting suspicious activity. This is also a good way to keep your deliveries and neighborhood secure.

PORCH AREA VISIBILITY

Keep the porch area clear and visible. The more likely a would-be thief is to be seen, the more likely they are to choose another target.

CUSTOMIZE DELIVERIES

Customize deliveries by adding specific delivery instructions using USPS.com and your tracking number. You can also schedule packages to arrive when you are home or reroute packages.

DELIVER TO SECURE LOCATIONS

Send packages to secure locations such as Amazon Lockers, FedEx and UPS locations, P.O. Boxes, and local post office.

USE MODERN ALTERNATIVES

Take advantage of contemporary options like smart lockers, lockboxes, cameras, motion detection lighting, alarms like Package Guard, and services like Doorman.

Domestic Violence
