Black Friday **Safe** Shopping Tips

As the holiday season jumps into full swing, and shoppers venture out onto San Francisco streets to support local businesses, SF SAFE has some tips for protecting your personal safety as well as your holiday purchases. Check out these “Park Smart Black Friday Edition” tips to ensure that your holiday season is not only merry, but also safe.

Park Smart Black Friday Edition

The first rule of parking smart while holiday shopping is **if you love it, don't leave it!** Never leave anything of value visible in your vehicle—or, ideally, in it at all. Doing so will make you an easy mark for a smash-and-grab.

If you must place packages in your trunk and plan to return to shopping, take a moment to **move your vehicle to another location** in the event thieves are casing the parking garage/parking spot.

Be sure to **lock your car doors and trunk as soon as you return to your car** after shopping—especially if you're sitting checking your cellphone. Don't forget to relock the doors and trunk of your vehicle if you return to shopping.

Don't leave your car running while you load purchases and shopping bags into your trunk. A shady character might seize the opportunity to make off with Santa's sleigh.

Notice a suspicious person possibly casing cars or watching shoppers in the parking garage or on the street? **If you see something, say something** by reporting it to the SFPD.

After you leave your shopping excursion, **if you notice you're being followed, drive to the nearest police or fire station**—or a populated area is another good option.

Being an Alert Shopper

Also during your shopping excursion, **be an alert shopper** by being aware of your surroundings. Notify security personnel or store owners if you notice any of the following activities: Someone tampering with surveillance cameras; an individual who seems to be concealing something—such as a threatening device—under bulky clothing; unattended packages; a person acting erratically or nervously; and suspicious chemical smells or pungent odors. Again, these are additional situations where **if you see something, say something**.

Personal Safety and Pick-Pocketing Prevention

Also during your shopping endeavor, be mindful of your **personal safety and pick-pocketing prevention** by: Bringing only the cash and credit cards you need; not carrying your social security card or passport; not letting others (intentionally) distract you in crowds; and avoiding distracted walking, i.e. limiting the use of your cellphone or earbuds in public.

If you need to contact authorities regarding an emergency or crime-in-progress, dial 9-1-1. For non-emergencies, contact the SFPD at 415-553-0123.

Park Smart

With auto break-ins a persistent issue in San Francisco, it's important that residents and visitors keep their belongings safe when parking throughout the city. Here's a rundown of easy-to-follow "Park Smart" tips and safe habits to adopt that should prove useful.

If you love it, don't leave it. Don't tempt a thief by leaving valuables in your parked car such as cell phones and tablets; luggage and shopping bags; wallets and passports; purses and backpacks; and laptops and cameras.

Turn off the ignition. Never leave your car running unattended.

Keep your vehicle and tires in good condition. This helps prevent breakdowns which could strand you in a dark or unfamiliar place.

Lock your doors when you get in your car.

If you see something, say something. If you see a motorist in distress, call 9-1-1 versus stopping to help.

Clear your trunk and take your valuables with you every time you leave your car.

If you are being followed, drive to the nearest police or fire station; a populated area is a good default

CRIME PREVENTION TIPS FOR BURGLARY

Emergency

Non-Emergency

- Never leave your home doors unlocked or open. Use dead bolt locks, they are a great deterrent to burglars.
- When you leave, close and lock your windows. Many burglars enter homes and apartments through open windows. Windows on or near fire escapes should remain locked.
- Don't "buzz" strangers in. Don't permit unexpected utility workers, deliverymen, or strangers into your home. Ask them for their I.D. and phone number to their office. Call 911 if you are not sure of their identity. Call the police to report suspicious activity.
- Give your home or apartment an "occupied look." Lights or a radio on automatic times may help deter burglars. Bright motion activated lights are a good deterrent as well.
- Install security cameras or burglar alarms. Most are DIY with easy installation and are assessable with an app on your smart phone.
- If you park your car inside your garage, lock the car doors. Burglars will steal garage door openers and come back when you are not home.
- Trim shrubs and branches away from doors and windows for better visibility.

CRIME PREVENTION TIPS FOR ROBBERY

Emergency
Phone 9-1-1

Non-Emergency
Phone 415-553-0123

City Service Center
Phone 3-1-1

- Trust your instincts. If you sense trouble, get away as soon as possible.
- Show confidence. Walk at a steady pace, keep your head up and avoid carrying lots of packages...It can make you look defenseless.
- Don't look like an easy target. Robbers want someone who will provide the least resistance. If you look like you know where you are going, walk with your head up and eyes alert, you will most likely be left alone.
- Be observant.
- Remain alert and observe the people around you. Know who is walking behind and in front of you. Things to watch for include suspicious persons, people just loitering around or vehicles.
- Be aware of your surroundings. If you think you are being followed, go to a crowded area.
- Walk in well-lit areas. If possible, do not walk alone.
- Do not carry large amounts of money.
- Carry keys in your hand.

SF SAFE CITY CAMERA PROGRAM

Through the SF SAFE City Camera Program, we address public safety needs and help reduce crime through collaboration.

By partnering with community stakeholders, such as local merchant associations, businesses, and community residents from San Francisco's high trafficked neighborhoods, commercial corridors, and our City government, we identify specific needs, install public safety cameras and create, develop, and implement safety plans with a meaningful community-led and community-driven process.

Through this program, SF SAFE targets high-risk and high-traffic city blocks comprising about 20-30 businesses or residential areas for the installation of high definition security cameras and surveillance technology. Typically, a coverage area of about 18-24 camera views per corridor is provided. Camera installation projects for commercial corridors take about 12 weeks from start to finish and encompass outreach, assessment, mapping and system installation. We work with technology vendors as the technology solutions and data privacy provider for this program, accountable to the most stringent level of self-imposed policy standards.

In addition to the security cameras acting as a visible crime deterrent, the footage is an extraordinary tool in assisting businesses and community members in the investigation of criminal activity if/when any occur. This program levels the playing field, holding all involved accountable, creating an equitable and true evidence chain for investigators and public defenders alike, as an innovative alternative policing tool empowering communities to take ownership over their own public safety needs.

PREVENT GARAGE DOOR BREAK-INS

ANATOMY OF A SAFE GARAGE

Your home is only as safe as its weakest entry point.

Your garage is an important part of your home and securing your garage is one of the most essential steps to securing your entire home. It is always recommended to regularly check and update your home's security system and safety measures.

For more information, please contact SF SAFE at (415) 553-1984 or visit sfsafe.org.

PREVENT GARAGE DOOR BREAK-INS

Garages can sometimes be the most vulnerable area of the home and they are often the entry point most targeted by thieves because of the easy access to the home. Here are some tips to help secure your garage and protect it from theft.

ALWAYS CLOSE YOUR GARAGE DOOR

This may seem obvious, but just drive through any residential neighborhood and you'll likely see a few wide-open garage doors. This is an invitation to burglars and at the very least, you're allowing passersby to easily view the contents of your garage.

INSTALL MOTION-SENSITIVE LIGHTS

Homes and garages with poor exterior lighting become more appealing targets for burglars. Ensure all entry points are well-lit. Constant lighting supplemented by motion sensitive lighting is best.

REINFORCE THE GLASS ON THE GARAGE DOOR

Add vinyl adhesive to reinforce garage windows. You can also opt for a frosted or translucent glass design to allow sunlight in while obscuring contents inside.

DON'T LEAVE GARAGE DOOR REMOTE IN YOUR CAR

A garage door remote is basically another key into your home and thieves won't hesitate to use it if they find it. Opt to use a remote on a keychain.

INSTALL AN INTERIOR MANUAL GARAGE DOOR LOCK

When leaving on a vacation or for extended periods of time, disconnect automatic door motor and install a manual lock.

TIE EMERGENCY RELEASE CORD

Tying your emergency release cord into a small ball will make it more difficult to reach by thieves who manage to break the garage windows.

INSTALL SURVEILLANCE CAMERAS

There should be at least 1 exterior mounted camera facing the street and registered with the D.A.'s office.

SECURE ANY VALUABLES

Keep all tools in cabinet systems with locks and be sure to hang and lock any bicycles. As much as possible, try to avoid keeping valuable items in the garage or inside vehicles.

HAVE A QUALITY, FUNCTIONING GARAGE DOOR

Garage doors should be as secure, sturdy, and well-built as your front door and should remain in good condition and tight fitting. Deadbolts should also be added to the garage-to-house door.

INSTALL INTERIOR MAIL SLOT HOOD COVER

If the garage door is equipped with a mail slot, a hood cover will prevent any view into the garage and its contents, eliminating enticement to enter.

For additional information, please contact SF SAFE at (415) 553-1984 or visit sfsafe.org

With the Covid-19 restrictions lifting in phases and many of us are starting to venture out again, here are some Package Theft Prevention Guide from SFSafe to help prevent your packages from being stolen.

PACKAGE THEFT PREVENTION GUIDE

WON'T BE HOME?

Use the "Hold Package" option at USPS.com to have packages held at location post office for pick up. You can also arrange for neighborhoods to pick up any packages that might be delivered.

USE SPECIAL SERVICES

Use USPS special services like *Signature Confirmation* or *Registered Mail* to add a layer of security.

REQUEST NONDESCRIPT PACKAGING

When completing your online order, opt for packaging that conceals the item or select the 'gift' option to ensure package arrives in a plain box especially when ordering from a high-end store.

NETWORK WITH NEIGHBORS

Neighborhood groups on social media or community apps can provide a system for reporting suspicious activity. This is also a good way to keep your deliveries and neighborhood secure.

PORCH AREA VISIBILITY

Keep the porch area clear and visible. The more likely a would-be thief is to be seen, the more likely they are to choose another target.

CUSTOMIZE DELIVERIES

Customize deliveries by adding specific delivery instructions using USPS.com and your tracking number. You can also schedule packages to arrive when you are home or reroute packages.

DELIVER TO SECURE LOCATIONS

Send packages to secure locations such as Amazon Lockers, FedEx and UPS locations, P.O. Boxes, and local post office.

USE MODERN ALTERNATIVES

Take advantage of contemporary options like smart lockers, lockboxes, cameras, motion detection lighting, alarms like Package Guard, and services like Doorman.
